Personality

A very boisterous man, Springstein is very out putting and loud. He always ways in on an argument and can never be persuaded against things, especcially the chemical sciences. He joined [The Wayward](#) with the goal of furthering his knowledge of the chemical, biological and astronomical sciences.

History

Born in [YE 16](#) in [Geshrinopolis](#), Lucas Springstein was always fascinated by the sciences. As a young child he could often be seen mixing various things from his fathers shed or in the kitchen. By age 10, his mother had managed to channel some of that fascination into a skill of cooking.

After Graduating from high school and university, he became a science and home economics teacher, in the hope of spreading his fascination to the next generation. While working at one of the schools in his home town, his parents were killed in a hostage situation gone wrong. After that day, Lucas began going to the gym daily, working to make sure he protect the people he cared about, namely his then wife.

A few months after his parents death, Lucas' wife attempted to torture and kill him, resulting in a nasty scar down his leg. He was able to push her away and subdue her before getting divorced.

After a few more months of teaching science at his local high school, while he was walking past his local church, Springstein had a sudden revelation that he wanted to do more to help people than just pass scientific interest to the next generation. He wanted to expand his knowledge base and use that to save people in need. He quit his job and began freelancing as a ship board scientist.
