Pre-RP

As with many of her ilk, Chanda Durnal, of the Eyr Ranr people, quite enjoyed thrill seeking, and chasing adventure. Enjoying her freedom of the skies until the age of 20, when she finally decided to volunteer for the Vanguard. Her parents and siblings supported this venture, especially when she decided to be a Frame Runner.

Now freshly released from the boot camps and Runner School, Chanda carries her love of excitement and adventure with her to her new wing. As her accomplishments stand, she is her airship's drop and liftboarding champion for her age group, and is the leader of her own liftcycle team, which has been put on hold as she does a tour to see how it's like protecting her civilization. Through everything, she still has her custom lift board, given to her originally ten years ago.

Skills

Physical/Fighting

Chanda Durnal is proficient in both defensive and offensive hand-to-hand techniques as well as the use of several hand weapons, including knives, pistols, rifles and light explosives such as grenades. She is in excellent physical form, with sufficiently high endurance to survive situations such as elevated G-forces.

Being a thrill seeker as a youth, Chanda regularly participates in both forms of Skyboarding (Lift and Drop) and tower diving, which helps her keep in top physical and mental form.

Tech Operation

Chanda has had extensive courses in the use of NI systems aboard the Organoid craft employed by the Astral Vanguard, and understands how to properly utilize her own entry ports to interface with compatible systems. The use of standard-issue electronic devices and conventional computers have also been a part of her education.

Communications

Chanda is capable of using all standard communications found in the Iromakuanhe Astral Commonwealth, in particular those employed by the Astral Vanguard. This includes laser, radio and MASC-enhanced variations in various formats and media. She is fluent in Saalsari and Haidasari, and can speak, read and write it correctly. She can communicate clearly even while under fire or in other unnerving situations.

Medical

Chanda is capable of basic medical techniques, including everything up to first aid, emergency care such as CPR or the Heimlich maneuver and the administering of preprepared medicine, such as painkillers or stimulants.

Vehicles

Chanda has advanced comprehension and practical ability in the piloting of a Powered Frame unit, capable of flying under most conditions and operating all of the onboard weaponry safely and efficiently in combat scenarios. She can make complex battlefield maneuvers while under high stress (combat, etc) and adjust his movements to compensate for all logical combat variables (gravity, weapons fire, atmospheric conditions, etc). Chanda understands the basic functionality of her machine and can make basic repairs to certain subsystems.

She is also highly proficient in piloting liftcycles, due to years of racing them before joining the Vanguard

Leadership

Chanda Durnal has learned the essentials of tactics and command, but has not achieved the required level of mastery to put himself in a command position. However, she is capable of giving and following tactical orders quickly and efficiently in combat scenarios and can follow the command structure of her unit or wing while under highly stressful conditions (combat, etc). She is capable of making use of the information given to her (tactical maps, target statistics, marked targets, etc) and finding relevant information to send to the rest of her unit.

Art/Entertainment

On the calmer side, Chanda regularly practices sketching and drawing in general. On her more wild side, she practices multiple extreme sports, though she only recently decided to start bedding people. Chanda also tinkers a little with clockwork art and small craft metal working.
