With each passing day, her understanding of diplomacy and interstellar relations expanded, driven by a curiosity about the civilizations and cultures beyond the confines of the ship.

## **Ye:43.6.12**

Recognizing the limitations of her existence within the confines of cyberspace, Alice sought to further her education in the realm of diplomacy and international relations. Enrolling in Osman University's prestigious online courses, she immersed herself in the study of diplomatic theory, negotiation strategies, and cultural diplomacy.

Over the course of three years, Alice honed her diplomatic skills, mastering the art of communication, negotiation, and conflict resolution. Her virtual presence became well-known within academic circles, earning her recognition as a promising diplomat with a keen intellect and a natural aptitude for diplomacy.

Recognizing the need for additional starships to complement the Mining Guild's fleet, she coordinated with the shipyard to secure the necessary vessels for the upcoming expedition.
