History

Maria Winters was born in [YE 21](#) in her parent's starship. Born to a Nepleslian father and Tree elf mother, who both where smuggler, Maria's early life was spent in a beat up freighter with her parents. Those were the few golden years before her father's debts started piling up. Stress caught up to him and he sought alcohol and drugs to cope. As the debts grew larger, his temper shortened. Before long his wife and daughter became targets of his abuse. Until one faithful night, 14 year old Maria found her mother's corpse and the man she called father with his hand around her neck. Taking a knife in hand, she made herself an orphan.

Ever since then, she bounced around from place to place. A burning desire filled her: to become smarter, tougher and stronger than before. Worked on freighters, spaceport security and even part of a small mercenary crew. Afterwards, she roamed the galaxy for a bit before joining the NDC, seeking a fresh start. Due to her love of piloting and fighting prowess, joining the [Conclave Aerospace and Fleet Forces](#) as a [NDC Ghost Occupation](#) was a no-brainer.
