## History

### Family (or Creators)

Father: unknown ID-SOL Mother: Maria Morro

### Pre-RP

The illegitimate son of an ID-SOL, Delmar Rey Morro was raised solely by his Mepleslian mother, Maria Morro. Throughout school he had kept average grades and been involved in many fights with other students. When he was 16 his mother was killed in a drive by shooting. After a year of learning various martial art forms he had tracked down the gang responsible and in the course of twenty minutes had killed all 11 members of the gang while armed with only a .22 revolver and pocket knife. Despite the criminal nature of the men, Morro was charged with 11 counts of premeditated murder causing a great deal of controversy over the decision. However, the judge assigned to the case as well as his lawyer were able to work out an alternative to a prison sentence. He was offered 10 years in prison or 5 years of military service. He chose to become a marine.

## Skills

## **Communication**

Morro is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, ships, ground vehicles, power armor, and shuttles in both combat and non-combat conditions. Morro is fluent in Nepleslian. He can speak and write it correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. The character is skilled in field communications and is proficient in all rudimentary forms of communication (hand signals, flashing lights, etc).

## **Fighting-CQC Focus**

Morro received intensive hand-to-hand combat training (primarily focused on disabling and/or killing opponents) before and during boot camp and has followed up that knowledge with a rigorous training program. Before boot camp he had taken multiple courses in self defence including Krav Maga, kickboxing, and Judo. As a result he has developed an unpredictable "street fighter" style. Weapons he is trained in include pistols of all types, knives, grenades (and other forms of explosive weaponry) and rifles of all kinds. Morro is in excellent physical shape and has considerable endurance. The character is also able to pilot land-based power armors, but must rely on the suit's A.I. to do anything advanced.

## **Vehicle Operation**

Morro is skilled in the operation of ground based cars and trucks in urban environments.

## **Survival**

Morro knows how to survive in hostile environments. He can build shelters, hunt and forage for food, build a fire, etc. Morro can camouflage himself and is familiar with guerrilla warfare tactics.

## **Strategy (Tactics/discipline)**

Morro can understand and give out tactical commands and work with his troop to follow those commands efficiently. He knows the importance of teamwork on the battlefield, has been intensively trained in discipline and morale, and is able to recognize the command structure even while under extreme pressure (combat, etc). Morro is able to recognize ambush points. He knows basic math in order to calculate distances, etc, and can use a tactical map.

## **Domestic**

Morro can cook a variety of simple dishes, however most of them end up being very spicy.

## Physical

Morro is very strong, a trait that helped him when he was a child as a pitcher for his school's little league baseball team. He can throw items at high speed with relative precision.
