## Physical Characteristics

- Height: 7' 1"
- Mass: 285 lbs
- Measurements:

**Build and Skin Color:** Francis is stocky and broad shouldered for his height and partially defined (he's working on it). Francis has medium white skin that is slightly tanned, similar to a French skin tone (type III tone).

**Eyes and Facial Features:** Francis has a green right eye and a cybernetic left eye. The cybernetic eye gives him night and infra-red vision. He has a broad, cleft chin and square jaws.

**Ears:** He has a round, wide, human right ear and a cybernetic left ear of the same style. The cybernetic ear has no special benefits; it is no better than his original ear was.

**Hair Color and Style:** He has slicked back, dark brown hair, and long sideburns. He also has a small, controlled Van Dyke facial hairstyle.

**Distinguishing Features:** Francis has a standard cybernetic left leg below the knee that increases his strength in that leg by 80% and a cybernetic left hand with a magnet installed in the palm for improved grip. He has minor scars and burns running along the left half of his body.

## Psychological Characteristics

**Personality:** Francis has a lot of repressed emotions, mostly sadness and anger because of all the violence he saw in Nepleslia's mega-cities. His father, an ex ID-SOL marine and Nepleslian police officer has instilled in him a sense of right and wrong, but this was somewhat distorted by the criminal activities that were commonplace in his neighborhood as a child. Francis' childhood also taught him that friends are hard to come by so the ones you have you hold onto. Francis is a team player. He is also very willing to please because he was not given much approval by his father as a child. Therefore, he is very determined to get the tasks he is given done successfully.

- **Likes:** He likes reading, watching movies, playing chess and video games, using his head, and occasional solitude.
- **Dislikes:** He dislikes Yamataians, gangs, slow learners, and sushi.
- **Goals:** His goals are to rise to an influential position in the NSMC and to use that influence to carve out his own spot in Nepleslian history.

# History

## Family (or Creators)

Francis has an ID-SOL father, Jack Lasalle, which is why he is so stocky. Francis never knew his mother, because she died in childbirth. He has an older half-sister on his mother's side, Annette, who is a sergeant in the Nepleslian police.

## Pre-RP

Francis grew up in a lower-class area of a Nepleslian mega-city. He had an average childhood, and was raised around the gang violence common in those areas. Francis had one friend in the world in his early years; his older sister Annette, or Annie. He adores his sister to this day. His father Jack did not give him much attention as a child, so Francis grew to be accustomed to solitude. This is where he developed an avid love of reading. It took him away from the pain of lower-class life. As he grew up, he managed to make a few other friends, most of whom he is still friends with to this day.

During his teenage years, Francis got swept up into the crime that surrounded him for financial reasons. He started work as a messenger for a small local gang at age 14. At 15, he started working on the illegal slave trade in addition to running messages. At 16, his life of crime cost Francis. While he was running a message to his CO in the gang, a firefight sprung up around him in the middle of a street. He drew his .45, fired two shots, and then a car exploded next to him, claiming his left eye, ear, hand, and leg below the knee. He also received burns and scars. Francis had cybernetics implanted to replace his missing body parts, and corrective surgery to heal the burns and scars, which still remain to some extent today. The gang that Francis fought against consisted mainly of Yamataians, which left a distinct dislike for the Yamataians in his head. For the next five years, Francis struggled to pull out of his criminal past, but eventually overcame this obstacle.

As an escape from his past, he joined the NSMC at age 21. His boot camp and basic training was the average experience. He had a difficult time making friends among his classmates, but this gave him determination that he used to drive him to do his best in training. He graduated in the top 25% of his class.

## Skills

Communication : Francis is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, ships, ground vehicles, power armor, and shuttles in both combat and non-combat conditions. He is fluent in Nepleslian. He can speak and write it correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. Francis is skilled in field communications and is proficient in all rudimentary forms of communication.

**Fighting :** Francis received intensive hand-to-hand combat training that was primarily focused on disabling and/or killing opponents, and has followed up that knowledge with a rigorous training program. Weapons he is trained in include pistols of all types, knives, grenades, other forms of explosive weaponry, and rifles of all kinds. Francis is in excellent physical shape and has considerable endurance. He is also able to pilot land-based power armors, but must rely on the suit's A.I. to do anything advanced.

**Survival:** Francis knows how to survive in hostile environments. He can build shelters, hunt and forage for food, build a fire, etc. He can camouflage himself and is familiar with guerrilla warfare tactics. Francis is capable of long periods of survival in the wilderness, deserts, and other forbidding environments.

**Strategy (Tactics/discipline):** Francis can understand and give out tactical commands and work with his troop to follow those commands efficiently. He knows the importance of teamwork on the battlefield, has been intensively trained in discipline and morale, and is able to recognize the command structure even while under extreme pressure. He is able to recognize ambush points. He knows basic math in order to calculate distances, etc, and can use a tactical map.

**Technology Operation:** Francis knows how to operate most computers, nodal systems, and data pads. During his time with his gang, he recieved training on how to use electronic systems and basic hacking. He is familiar with the hacking techniques associated with these devices and can perform basic repairs on electronic systems if given the proper tools and time.

**Maintenance and Repair :** Francis is familiar with and able to fix most problems with vehicle components and to an extent, systems. While not necessarily well-versed on how a part functions and the theory behind each, he will be able to keep things operating within normal parameters.

**Vehicles (land vehicles):** Francis is familiar with how to effectively pilot most ground vehicles. He can make rudimentary repairs to his vehicle. In addition, he has one vehicle type in which he is particularly skilled at operating. While inside this vehicle, the K1b Light Personnel Vehicle, Francis can perform difficult maneuvers under high stress. He is also proficient in repairing this type of vehicle (if given the proper tools and time).
