## Kebros Krane in Roleplay

Kebros Krane is a [Player Character](#) played by [Karrie](#) and is currently involved in the plot.

## Physical Characteristics

Height: 1.75m Mass: 73kg Measurements: 91 cm Bra Size: N/A

**Build and Skin Colour:** Broad shouldered & thick-jawed. If judged by looks alone, he's the epitome of the stereotypical bodybuilder muscleman, even if his personality is quite the opposite.

**Facial Features and Eye Colour:** He's cultivating a short stubble on his face & has green eyes.

**Hair Colour and Style:** Auburn. He wears it in a millitary cut.

**Distinguishing Features:** Part of his right arm & hand is cybertronic, along with a portion of his jaw, due to an unfortunate accident involving a certain ship's cooling device.

## Psychological Characteristics

**Personality:** Kebros is a bit of a joker, trickster, and a layabout, all of which has not helped in the least bit to promote him, not that he cares about those sort of things much. He finds explosions fun & exiting, gunfights a good thing to bring popcorn to, and lingering on spacecraft a bore without some companionship. Kebros finds politics out of his league, and soldiering his cup of tea. In short, he's a man of action & a hopeless gambler. If given the opportunity, however, he can prove to be a very reliable person, save for the fact that he's hopeless with secrets. He prefers to get all things done as soon as is humanly possible, and then lay about some more. Despite his easy-going nature, he doesn't procrastinate, and believes that the quicker you get things done, the easier life would be in the future. Sometimes, however, he tends to rush jobs. So far, nobody has been killed yet, but there had been several injuries regarding him & his shoddy workmanship. It's thankful that Kebros is only a soldier, otherwise half the bridge crew would be dead by the time the ship got halfway to their destination. However, with the things he enjoys spending time on, he rarely makes a mistake, leading to his direct superiors docking his pay on more than a few occassions due to mistakes that could otherwise have been avoided.

**Likes:** Activity, Flashy things, Companionship, Guns, Tanks, Mechas, Money **Dislikes:** Boredem, The enemy, Deadlines, Strictness, Taxes **Goals:** None in particular. Maybe get a better position & better pay.

## History

### Pre-RP

Kebros was one of the few children born via. biological means, not that it changed anything about his childhood or his life. It's just something he falls back to when he feel belittled. His father was a naval officer of commander rank, so he also recieved some sort of protection offered by important people, and he was given essentially free-reign over what he wished to do & how he wished to do it. When he was 17, he had finished education and enlisted in the millitary. The Military Corps of the Star Military of the

Democratic Imperium of Nepleslia, to be precise. He completed the boot camp & basic training regimes with relative ease, save for the occasional backtalk to the officers, and was otherwise considered a good pupil. It was during this time at the academies that his father died in a ship-to-ship battle. The news was took with more or less indifference, since his father was a very small part of his life.

## **Skills**

### **Communication**

Kebros is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, ships, ground vehicles, power armor, and shuttles in both combat and non-combat conditions. Kebros is fluent in Nepleslian. He can speak and write it correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. Kebros is skilled in field communications and is proficient in all rudimentary forms of communication (hand signals, flashing lights, etc).

### **Fighting and Physical**

Kebros received intensive hand-to-hand combat training (primarily focused on disabling and/or killing opponents) and has followed up that knowledge with a rigorous training program. Weapons he is trained in include pistols of all types, knives, grenades (and other forms of explosive weaponry) and rifles of all kinds. Kebros can repair weaponry with adequate tools and time. Kebros is in excellent physical shape and has considerable endurance. Kebros is also able to pilot land-based power armors, but must rely on the suit's A.I. to do anything advanced. However, he has a considerable repertoire of knowledge to draw from concerning weaponry & powersuits, reading up on them being a hobby of his.

### **Survival**

Kebros knows how to survive in hostile environments. He can build shelters, hunt and forage for food, build a fire, etc. Kebros can camouflage himself and is familiar with guerrilla warfare tactics.

## **Strategy (Tactics/discipline)**

## **Engineering**
