History

Family (or Creators)

No known family except for a non-blood related brother named Ian Noone whom she grew up with.

Pre-RP

Found as a baby as on a private escape pod which had been ejected from a destroyed space station.

She grew up as an orphan in a Swedish-speaking orphanage and was taken care of together with twenty other kids, whom Ian was randomly selected as her main friend. She never really got along with him, but they have decided to call each other family so they have at least something to hang on to if everything goes to hell.

As she grew up, she stayed in the orphanage with Ian, and did pretty bad in school. By the age of sixteen, she joined military school since it was the only thing that could take her in, and she quickly moved into her own private small apartment and by the age of seventeen, took care of herself.

At the age of twenty, she enlisted in the marines, where she got use for her powerarmor training.

Skills

Communications

Nina speaks Nepleslian. She's familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, ships, ground vehicles, power armor, and shuttles in both combat and non-combat conditions. She can speak and write Nepleslian correctly, efficiently and can write reports, fill forms, issue orders under fire, etc. Nina is skilled in field communications and is proficient in all rudimentary forms of communication (hand signals, flashing lights, etc).

Fighting and Physical

Nina received intensive hand-to-hand combat training (primarily focused on disabling and/or killing opponents) and has followed up that knowledge with a rigorous training program. Weapons she is trained in include pistols of all types, knives, grenades (and other forms of explosive weaponry) and rifles of all kinds. Nina is in barely good enough physical shape but has a relatively good endurance in proportions to her lean body. She is also able to pilot land-based power armors, but must rely on the suit's A.I. to do anything advanced.

Strategy and Tactics

Just barely finished this course, and is not recommended for any command positions but could do better with experience. She can barely understand tactical commands but knows the importance of teamwork on the battlefield. Nina knows basic math in order to calculate distances, etc, and can use a tactical map but one would be wise to find someone else to do it.

Survival

She knows how to hunt, make shelter, and navigate her way around the wild, and could probably find nearby settlements by following traces in the nature.

Domestic

Due to her having lived many years alone, she has learned pretty good how to take care of herself in a majorly industrialized home.

Maintenance and Repair

She took a quick course about repairing and maintaining mainly powersuits, but also larger guns and sentries.

Entertainment

Mainly heavy drinking, her liver can hold a few bottles and she is quite prone to drink when alone.

Inventory

Nina Noone has the following items:

Finances

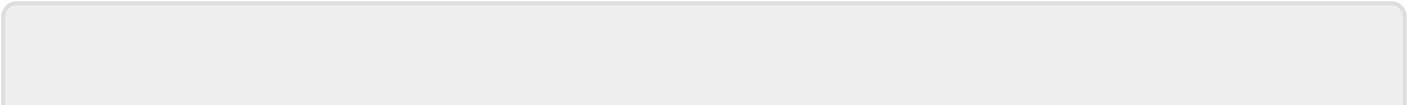

Nina Noone is currently a P3C in the Nepleslia.
