History

Philip Morris was born in [YE 15](#) to Melinda and Garath Morris. He was the 5th of 7 children, meaning he was always picked on and bullied by his older siblings, many of whom were later caught up in various illegal activities and lost contact with Philip.

By age 10, many of his friends had begun to regard him as the outgoing, intelligent one, however his teachers belived he had social issues and began trying to work on that with him, something that caused him to become a little more secluded in his later life.

By age 18, he had enlisted in [Nepleslian Space Marine Corps](#) as a [Medic](#), aiming to become a field medic as soon as possible. Around this time both his parents died from drug overdoses, severing the final ties he had to his siblings in jail.

At age 25, his youngest brother Nathan Morris came to him and introduced him to the woman he would one day call his fiancé. However, it later came to fruition that she was actually a serial bank robber, who was working in coaliton with Philip's brother, and they were both killed in a police shoot out.
