## History

Richter Keller was born 15日 7月 27 in [Planet Nepleslia](#). Richter came from a military family, his father had been a tank commander, his mother a medical officer aboard a ship and even his grandfather, though he wasn't talked about much. His sister was the only one that chose not to enter military service.

As a child, Richter hadn't always been the most studious of students, he had much rather preferred to spend his time outside. He was the sort of kid who brought injured animals home with him, much to the chagrin of his parents and their neighbours. He was an unruly youth as his father saw it, which is why he put Richter into boxing classes, to teach him discipline and give him an outlet for his anger. Like his parents before him, he chose to join the NSMC, well like his father before him, his mother had been a naval medical officer.

Richter followed in his father's footsteps at first, he joined the Cavalry, during his first two years of service within the NSMC, he served with great distinguish. Along the way he made up his mind to follow his heart, while remaining within the NSMC.

Richter chose to make an MOS change after his 2nd year in Cavalry, and hastening back to his love of animals, he chose to become an NSMC Animal Handler. To him this felt like a good fit for him.
