Andariel's Appearance

Build and Skin Colour: Andariel is not so large or imposing as most Patricians. She lacks the immense muscular structure, largely be personal choice. She is, as Patricians go, rather short, still allowing her to tower over the typical Yamataian. Her skin is very pale. **Facial Features and Eye Colour:** Andariel's face is careworn, showing some lines of age. This is purely cosmetic, as Archangels do *not* normally show signs of aging at 56. She - quite effectively - has nurtured a motherly appearance. Despite the 'aging', it would be hard to call Andariel anything but lovely. The curve of the lips, the brightness in the moss-green eyes, the ever-ready smile all make her quite pleasant to look upon. **Hair Colour and Style:** Andariel's hair is silvery white, shoulder length, falling in broad rippling waves. She rarely does much with it, simply wearing it loose whenever prudent. **Clothing:** Andariel typically dresses in Senator's teigha, the inner layer white, the middle layer metallic gold, and the outer layer violet. The soh'k'tohs, as well, is worn, hers being white banded with metallic gold, a contrast from the usual violet favored by Senators. She adds to this a has'okha of semi-transparent mesh, making for a very graceful, almost ethereal complement to the grace she naturally suggests.

Andariel's Personality & Mentality

Andariel is warm and inviting, a nurturing and supportive figure towards most everyone. Despite this, she is sharp as a tack, thoroughly willing and able to take an edged approach when necessary. She far prefers diplomacy through a friendly and complementary front, however. Andariel addresses life with a philosophy of nonresistance, finding it far easier to ebb and flow than to swim against the current. She approaches everything with a soft touch and a delicate precision, and always sees the good in a situation. Her optimism and supportive nature make her likable, and her own penchant for staying on the good side of everything has led to her having many friends and very few enemies - even amongst generally hostile factions.
