### Pre-RP

Brynhildr was brought up in the Yamatai Star Empire, he joined the SAoY at the age of 18, and was under training on a ship when the UOC broke from the SAoY. He decided that the UOC way was also his way, and so he joined the United Outer Colony Peacekeeping Forces. He went through basic partially planet side with some extra zero-g training in space. Brynhildr knew that battle was the way for him, but he also wished to be some sort of help to his new found nation, and so he became a Combat Medic, specializing in fighting and in doing medical work on the field and in dangerous situations.

Training was a tough endeavor and yet he made it through giving him skills he needed to succeed in the military. Wanting to move on, get some missions under his belt, and to make some new friends he enlisted on board the UCS Zenpyou. Knowing that this is one of the most important moments of his life, when he will either prove a good soldiers or fail he is very nervous. And a little scared about entering his new surroundings.
