## Physical Characteristics

- Height: 5'1
  - Mass: 97 pounds
  - Measurements: 30a-24-30
- Build and Skin Color:** Fair-skinned with a scattering of freckles, Daniela doesn't look imposing with her slender frame. She is however fit and lithe, often described as “Wiry”.
- Eyes and Facial Features:** Daniela has a cute, oval shaped face with wide, dark brown almond shaped eyes that usually carry a twinkle of amusement or mischief.
- Hair Color and Style:** Daniela's hair is light brown and cut just shorter than shoulder length. Typically she wears it tied back from her face.
- Distinguishing Features:** Daniela's left hand is artificial, although not obviously so. It attaches halfway down her forearm with a visible seam. While not military grade, her hand is of a high quality and is capable of exerting a far more powerful grip than her right.
- She also bears a rather impressive vertical scar that runs from her left hip almost to halfway up her ribs.

## Psychological Characteristics

- Personality:** Daniela has often been described as “driven”. Once she sets her mind to achieving something she is very difficult to turn aside.
- Generally friendly and easygoing, she typically makes friends easily although some can be put off by a tendency towards sarcastic humor.
- While realistic about the shortcomings of her body in comparison to some other species and even prone to self-deprecating jokes, Daniela does not take kindly to being told that she cannot do something.
- Daniela greatly enjoys physical activities of all kinds and will very rarely turn down an opportunity to spar, run or climb a random object - possibly sometimes against her better judgement.
- **Likes:** Physical activities of any sort, chocolate and books.
  - **Dislikes:** Boredom, confined spaces.
  - **Goals:** Currently wishes to make a successful military career for herself. Perhaps proving some people wrong along the way!

# History

## Family (or Creators)

Father: Frederick Miller Mother: Mary Miller Older brother: Clancy Miller

## Pre-RP

With her father being a talented engineer and her mother running a modest but successful bakery, Daniela grew up in a much more sheltered environment than many Nepleslian children. Despite that, she suffered serious injuries at age 9 when she was inadvertently caught up in a brawl between police and a major gang, resulting in the loss of her left hand and a nasty gash up the left side of her body. The relative success of her family enabled them to provide her with adequate medical care to recover fully from her injuries as well as access to quality prosthetics - to this point she has had 3 different artificial hands.

When Daniela was 13, her brother enlisted in the Nepleslian Star Military as a fighter pilot, and entranced by the tales of his training she immediately set her heart on a similar career. Upon turning 16 she marched into a recruitment office to enlist and was promptly declined without so much as an interview, having been told that a "tiny cute girl-child" was most definitely not what they were looking for. 10 minutes later after a quite impressive tantrum she was forcibly evicted from the building. Not to be deterred, Daniela promptly demanded that her parents allow her to enlist in the Star Army of Yamatai instead. After several months of internal family warfare her parents relented and packed her off for basic training, fully expecting her to wash out within the first week.

## Skill Areas

### Mathematics

Daniela received basic mathematics training, to including up to algebra and trigonometry. Mathematics came fairly easily to her but she didn't enjoy the subject matter enough to delve into it more deeply than necessary.

### Technology Operation

Daniela was a quick study with technology and is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

## Fighting

Daniela received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor.

## Communication

Daniela is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. She is fluent in Nepleslian and Yamataian. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

## Starship Operations

Daniela has received training in the skills necessary to run a starship, including Astrometrics, stellar cartography, navigation and piloting skills. While her training has so far included only smaller vessels she is greatly looking forward to opportunities aboard larger ones.

## Physical

Daniela takes great delight in climbing and running and has a habit of treating obstacles to either with contempt. While this has led to her developing a talent for minor acrobatics it also occasionally leads to spectacular faceplants.

## Maintenance and Repair

Partly from fiddling with the various artificial hands she has worn throughout her teenage years, Daniela has an aptitude for pulling things apart and putting them back together.
