## Physical Characteristics

- Height: 160cm (5' 3")
- Mass: 45kg (99lbs)
- Measurements: 36C-24-36

**Build and Skin Color:** Being of a light and thin build, she portrays a look of a bookish person. She has pale tan flesh that is covered in freckles head to toe.

**Eyes and Facial Features:** She keeps her watery brown eyes hidden behind a pare of [Emrys Uno Sunglasses](#) (clear round half moon lenses in a wire frame). As for the rest of her face she has thin lips, a small mousy nose and is covered with freckles. Her eyebrows are kept thinned and shaped to follow the eye line.

**Ears:** Her head is framed by a pair of neko ears that have a light coating of red hair.

**Hair Color and Style:** Her face is hidden behind a mop of red hair that hangs across her face, she his consistently having to brush it out of her face. Her hair hangs about shoulder length all except her bangs that hang to her nose.

**Distinguishing Features:** Other then the freckles she has not distinguishing features.

## Psychological Characteristics

**Personality:** She is a mousey little neko, easily passed over in a crowd. During her training she developed a habit of being quiet and meek, as to draw little attention to herself. She never have had much social interaction with others that weren't her instructors, leading to a lack of social skills.

- **Likes:** Books, the joys of small craft flight, and a fondness for hard candies
- **Dislikes:** Large crowds, and brightly lit large areas.

- **Goals:** To serve the Empire and root out dangers to its citizens

## History

### Family (or Creators)

She was created in the mass cloning facilities in the Vicky system, for use in S.A.I.N.T.

### Pre-RP

During her S.A.I.N.T. training she showed promise as a pilot, her trainers started to add more starfighter and starship operational protocols to her training regiment. She found that as she worked with the different crafts, she grew a fondness to flying.

### Aeon

#### Mission 05

In which Freyja joins the crew mid mission, gets interviewed by Katae, then takes a shuttle to help evacuate some civilians and the ground assault teams from an ice cave.

#### Mission 06

In Which Freyja flew a shuttle as if it was a Fighter. took out a few enemy fighters and then rescued Kata'nova. She helped create a form of communication with the lost kit, then proceeded to give airsupport to a ground assault underway.

#### Mission 07

Lots of feels happened through out the whole mission, freyja got close to Eli, and new member of the crew, before he was transfered at the end of the mission. She also flew the Xo and Josea to scan for unusual signals. Soon she was on the ground under the XO's orders and started marching towards a compound with some crab like aliens.

#### Mission 08

Gearing up to launch and expedition to what possibly could be Kata'nova's homelands, Freyja first talks to Katae and gets permission to fly the ship instead of the shuttles. Then put together a FARS drone to

help assist her and reported to the bridge. She ran into Josea there and tried to look busy going over the ship's systems

## Skill Areas

### Communication:

Freyja is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Your character is fluent in Nepleslian and Yamataian. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

### Fighting:

Freyja received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor.

### Technology Operation:

Freyja is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

### Demolitions:

She can identify, manufacture, handle and dispose of explosives. With the proper tools, she can detect and disarm enemy explosives as well. She became quite adapt at the use of demo charges during infiltration training missions.

### Rogue:

Though she has no great ability with any of these skills, She can pick basic locks, and is a very adept liar, able to craft outrageous stories and make them entirely believable - usually to the detriment of the one so convinced, having only the fact that she is young and can conjure up tears at nothing as saving graces.

### Starfighter Operations:

In her intelligence training she learned to operate numerous types of small craft. She grew proficient in piloting star fighters, leading to her being placed in to advance fighter training.

## Starship Operations:

During her training she was taught basic starship operations. She was to know how to operate any military ship in the SAoY in case of need in her line as an intelligence operative.
