History

Fuyu was the first sprite created aboard the [YSS Asamoya](#) and as such was the non-militarized personification of the main body. Originally a nurse aboard the ship, Fuyu led as normal an existence as could be had on a warship. While she did not participate in combat operations utilizing powered armor, she was still the main ship's persona and as such was part of ship to ship fighting. Disliking conflict due to two occasions in which she utilized [the other her](#) to great and terrible effect. She often keeps quite

about her time acting as the avatar of the Asamoya so much so that even her sisters cannot get her to speak of it. Like the others however when [Yuriko Towa](#) left Yamatai for the UOC she joined her. And like her sister soon returned to Yamatai once a pardon was granted to all those that defected.
