Zodiac Sign:	Libra
Height:	165.1 cm
Weight:	53.52 kg
Organization	Star Army of Yamatai, First Expeditionary Fleet
Rank	Santô Hei
Occupation	Technician
Current Placement	Technician, YSS Miharuru

Physical Characteristics

Height: 5' 1"

Mass: 105 lbs

Measurements: B 80, W 62, H 79

Bra Size: B

Build and Skin color: Rei is of average build, with flesh toned skin.

Facial Features and Eye color: High cheekbones and generally Oriental features. Her eyes are a pale green.

Hair color and Style: A natural green-head who took to dyeing her shoulder-length hair a rust orange color. She keeps it tied out of the way when working or on duty, but lets it down whenever she can.

Distinguishing Features: Unless safety prohibitions say otherwise, Rei wears a stainless steel ring on the little finger of her left hand, her left hand being dominant in writing. She claims it as a good luck charm and refers to some obscure mythos relating iron rings and engineering.

Psychological Characteristics

Personality: Rei tries to make herself the life of most any social situation she encounters. While not an unabashed party girl, far from it actually, she warms up to new settings quickly and defines her place in the universe through the network of people she knows wherever she is - it's probably best to describe her as 'chatty'.

That being said, she's an exercise in contradictions - she's outgoing but only keeps a small circle of friends, she'll talk about everything and anything one moment yet becomes practically mute when there

is work to be done.

All that aside, she has to be engaged in a particular task for her to put her mind towards it - she's hardly a self-starter. Compounded by her inability, or unwillingness, to set specific goals makes her hardly the picture of responsibility. Still, she follows orders well enough - in fact she seems happiest when led by someone even marginally competent.

Likes: Taking things apart to see how they work, 'constructive' demolition, tall-tales and other conversational starters

Dislikes: Early mornings, having to requalify her qualifications

Goals: To make officer and finally be able to 'do things her way', more realistically she wants to learn how to play an instrument.

History

Rei grew up on [Valaad \(An Rhy\)](#).

Rei's been a follower all her life. Even her younger sister Rui had a greater sense of initiative compared to her. At her mother's - and by the trend of the times' - urging, two years ago, she upgraded her body despite protesting she 'liked being a Geshirn' just fine.

After finishing school and being completely bereft of direction in life, she followed her mother and older sister into the Star Army more as a misguided sort of loyalty to her family and its budding 'military tradition' than any real willingness to serve - and because she had no idea what else to do. As such, she's been a wonderfully obedient, if mediocre, soldier. She does what she needs to do and is expected of her - and that's it, much to the consternation of the elder women in her family.

Still, as far as Rei is concerned, she is just fresh out of her training pipeline and waiting to be assigned to her first post. In her eyes, she's got plenty of time to get done what she wants to do - now if only she could figure out what that was.

Skills

Communication: Rei is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Rei is fluent in English and Japanese. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

Fighting: Rei received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she has trained with include energy pistols and rifles, knives, grenades and power armor.

Technology Operation: Rei is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

Mathematics: Rei received basic mathematics training, at a level including algebra and trigonometry.

Maintenance and Repair: Rei has been trained in the maintenance and upkeep of most Star Army technology cleared for her to know the workings of. She specialized in power armor maintenance.

Engineering: Rei has taken some courses in engineering in her spare time, hoping to use it as a means to advance into an officer position. Less academically, she received training in military engineering - the building of field emplacements and so on.

Demolitions: As a side effect of her Engineering training, Rei is trained in the safe handling and effective use of explosives in battlefield demolitions conditions.
