History

Relatively recently manufactured, Mori decided to immediately enter the Star Army to repay her 'lifedebt'. After spending some time as a cook, she became unhappy with her body as an NH-17, eventually soul-transferring to the new NH-29 model, considering her life as an NH-17 a failure. Mori requested a transfer to pilot a Mindy after deciding that culinary delights were not her calling. She is slightly more prone to low self-esteem than some NH-29s due to her “failure” at her first life, and it is one of her few (known) weaknesses, though she surely has more undiscovered shortcomings. She is eager to serve and eager to win—she refuses to fail.

Skills Learned

Communication: Mori is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Mori is fluent in English, (and since she is a Nekovalkyrja, Japanese). She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

Fighting: Mori received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, knives, and power armor.

Technology Operation: Mori is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

Mathematics: Mori has received basic mathematics training, to including up to algebra and trigonometry.

Knowledge: Has read an extensive amount of history; More wasa uploaded when Mori changed from a NH-17 to a NH-29. This includes technology, comedy, classic literature, and some sciences, though not

enough to allow any of the occupations requiring these bits of knowledge. Factoids are a major part of the extraneous knowledge.

#Leadership: Speeches and squad leadership have been uploaded to Mori's brain, including many famous leaders' key styles and claims to fame.

#Domestic (cooking): A much hated skill, Mori has the knowledge required to make any requested dish of a skill level equivalent of a gourmet 3.5 star restaurant. She mainly makes instant ramen, though.
