Chikai was an athletic student, specializing in track. He would go with his father to visit sites where his designs were being built. This is where Chikai got his interest for designing things.

In [YE 27](#) he transferred to a [NH-22C Yamataian](#) body. He graduated early in [YE 28](#) he wanted to go with his father to [Taiie](#), but instead his father insisted that he start attending Engineering school.

In [YE 28](#) his father went to [Taiie](#) to help with building the colony. When the colony was destroyed in [YE 29](#) he was killed as well. Chikai did his best to help console his mother.

In [YE 30](#) when the [United Outer Colonies](#) was created Ume moved from [Yamatai \(Planet\)](#) to [Jiyuu System](#).

Chikai left college in [YE 31](#) and was reunited with his mother. Shortly after that he chose to enlist in the [United Outer Colonies Peacekeeping Forces](#) as a means to complete his training.

History

YE 31

Shortly after Chikai arrived at his first duty assignment. His life was to be changed forever. While he was helping to repair the [UCS Zenpyou](#), [Mayer Station](#) was attacked and overrun by the [NMX](#). Their ship was infested by parasites and communications with the station were completely garbled. They were driven out of their ship, with their commander grievously injured. They donned power armors and made their way into the station to try and hookup with other Peacekeepers.

Chikai and his comrades were able to hookup with other survivors of the initial assault and established a base of operation deep inside the station. Cut off from their government, they wages a guerrilla war campaign against the occupying NMX. For more than two years, they survived doing what they could to protect the civilians they rescued and strike at the enemy.

YE 33

Finally at the close of [YE 33](#), the [YSS Aeon](#) arrived to investigate the situation and attempt to make contact. The Peacekeepers having been deceived by the NMX in captured SAOY gear, took a wait and see

approach despite getting request for contact. It was only after watching the SAOY away team fight a number of NMX that he and his fellow Peacekeepers chose to make contact. Seeing this as their last chance to get off the planet and to some place safe.

After making contact with the SAOY, they boarded the Zenpyou. Chikai restored the primary systems so that his friend [Roken Techard](#) could fly the ship out and up to rendezvous with the [YSS Aeon](#). Once they were clear of the station, he programmed the reactors to overload completely destroying [Mayer Station](#). After that he had a discussion with [Alice Mason](#) about the future.

YE 34

After arriving at the [Veronica](#) Chikai turned in his Peacekeeper equipment, and after being cleared by medical chose to go to the surface of [Ronica \(Planet\)](#). There he investigated a number of opportunities, he spoke to [Alice](#) about the [Scientific Studies Service \(SSS\)](#). He told her it was his intention to join the civilian organization, and see the frontier.

He traveled with [Alice](#) to [Daichi](#) to enlist with the [SSS](#) and receive his training with them. While there Chikai decided to upgrade to the [Minkan](#) body type.

After completing orientation, he was then assigned to a team of specialists called the [Journeyman 3](#).
