Physical Description

Enki is a tall Nekovalkyrja woman with strong Asian influences. She dresses in the common Noval fashion - more ostentatious than necessary, while still appearing classy. She braids the top of her hair and pulls all of her hair back into a long ponytail. Her body is toned, showing her continuous efforts to stay in top condition despite her civilian role.

She tends to have a discerning, cautious look to her when not around clients, a remnant of her long military history.

Personality

General Personality

- Enki carries herself in the fashion of a 'proper Yamataian lady' while still remaining a resolute, insightful business woman.
- With people she is comfortable around, she is much more relaxed and behaves more like a polite soldier type. She isn't afraid to make the occasional rude comment, crass joke, or unkind observation.
- She cares deeply about her appearance, taking great care with the way she looks and dresses. This is one of the reasons that she enjoys working for Noval - she gets an excellent incidentals budget.

Motivations/Goals

- Enki has largely accomplished the goals she held when she was born. She now seeks to accomplish the tasks given to her in the best fashion possible while enjoying the benefits of civilian life.

Work Ethic

- A strong work ethic is one of Enki's defining features. Despite her calm, relaxed demeanor, she is always giving her 100% at whatever it is that she is doing. In the face of poor or impossible odds, Enki is the type to lean in harder.

Habits

- Enki takes great care of her appearance and enjoys reading fashion magazines in her free time.
- Each morning and night, Enki runs through various kata for kendo, kempo, and aikido, as well as yoga and her SAoY drills.

Demeanor

- Enki is a reserved woman who carries herself proudly. She prefers to allow her actions to speak for her, where possible.
- When she must talk at length, she does so with grace and care. Her words are carefully chosen for the greatest impact.

Relationships/Social

- Enki has few long-term relationships, having learned the dangers of becoming too attached during her time in the Star Army.
- She is strongly connected to Nevarra Noval, who helped in her transformation to the woman she is today. She views Nevarra as more than just an employer. Their relationship is more similar to a lord and their samurai than something driven by a simple paycheck.

History

Kirameku Enki was born in [YE 36](#) as part of the [Star Army of Yamatai](#)'s mass production efforts. She served through various missions and campaigns across the next four years before deciding that she was ready for a change.

That change came in the form of a chance encounter with Nevarra Noval, CEO of the [Noval Heavy Industries](#). The CEO was in the market for a capable bodyguard and assistant; a seasoned Nekovalkyrja seemed to be an excellent fit. What followed was a different sort of grueling training in business acumen, proper manners, and high society. For someone with her background, this new battlefield proved to be immensely challenging.

Nevarra, however, was insistent, and Enki is not the sort to give up. While her combat instincts and training have never faded away, she is now able to present herself as a savvy business woman and acts as a trusted confidant of the Noval family. When she is not assisting with business deals, she is often seen in the company of [Andar Noval](#), acting as a bodyguard for the corporation's young master.
