

Kuroaki Isuzu

Isuzu is a [Player Character](#) played by [Alhazred23](#) and is currently assigned to [Fort Victory Reserve Center](#).

Kuroaki Isuzu (黒明 五十子)	
Species:	NH-29S Series Nekovalkyrja
Gender:	Self-Cloning (Female)
Age:	7 months
Creator:	Ketsurui Zaibatsu
Zodiac Sign:	Cancer
Height:	4 feet 11 inches = 1.50 m
Weight:	104 lbs = 47 kg
Measurements:	(30C) 33/24/32
Organization:	Star Army Reserve
Rank:	Ittô Hei (Specialist)
Occupation:	Technical Sentry
Current Placement:	Fort Victory Reserve Center

Physical Characteristics

Build and Skin Colour: Isuzu wears the lithe, slender build of a Nekovalkyria without flair. Though perhaps not *totally* graceless, she moves deliberately and wastes very little motion. This careful, measured manner lends her an air stability that meshes well with her earthy, olive-toned skin. Isuzu is also on the short side, even for a Neko, which tends to emphasize her already curvy figure in distracting ways.

Facial Features and Eye Colour: Large, almond-shaped eyes, a small nose and a hard, narrow jaw line give Isuzu's face a distinctly predatory cast. When she is focused, her deep green irises shine like shards of emerald; bright, clear and deadly sharp. She could theoretically be described as “attractive” or even “cute,” but most would generally apply the caveat, “in an cold/harsh/angry sort of way.”

Hair Colour and Style: Isuzu's hair is straight, black and shiny. She keeps it neatly bobbed just below her cat-like ears, which are covered in fur of a same color and have fluffy tufts at the tips.

Distinguishing Features: In addition to having unusually dark skin for her species, as a 'manufactured' model [NH-29S Series Nekovalkyrja](#), Isuzu was born with a genetic tattoo/bar-code on her left lower back. Isuzu based her personal name on the last two digits of her serial number (50).

Psychological Characteristics

Personality: Though still young, Isuzu sometimes seems mature beyond her years. While she is indeed

a bit more calm and collected than most six-month-old Nekos, the biggest factor in creating this illusion is her cautious personality.

During training, Isuzu always spent as much time as possible reviewing her instructions and watching others before she would attempt tasks herself. As a result, she managed to complete most of her assignments with apparent ease, and received much praise from her keepers. Isuzu likes to be considered 'reliable,' but is secretly worried that she won't be able to deliver in a pinch.

Despite being posted to the [Third Expeditionary Fleet](#), Isuzu considers the [Fifth Expeditionary Fleet](#) her family. During the months she spent on [Hotaru Star Fortress](#), she grew to share many of the views and attitudes common in that isolated corner of the Empire. As a native of the [United Outer Colonies](#), Isuzu slightly more loyal to the [Motoyoshi Clan](#) than she is to the [Ketsurui Clan](#).

This attitude has only become further ingrained since Isuzu started her military career in earnest. Though she escaped the massacre at [Valaad \(An Rhy\)](#) in [YE 30](#), Isuzu was not impressed by the decision of Star Army Central Command to send the outdated and diplomacy-centered [Third Expeditionary Fleet](#) on a serious combat mission.

After [Valaad \(An Rhy\)](#) Isuzu was assigned to [Pisces Station](#), to assist with the [International Relations Conference of YE 30](#). Tasked with various aspects of station security, Isuzu has had more than her fill of criminals and politicians, and has even attracted the attention of SAINT for certain actions she took while assuming temporary command of conference security during the attempted arrest of [Melisson](#).

This unbroken string of seemingly random misfortune has done much to harden Isuzu's outlook since she was discharged from the training center. On top of being cautious, Isuzu has grown rather cynical and more than a little bit paranoid. The first few weeks of any new assignment are always especially nerve-wracking for her, as doom always seems to strike shortly thereafter.

Likes: Hot chocolate, smoked fish, instruction manuals, machines that make noise so you know they're working. **Dislikes:** People who don't speak clearly, being in a hurry, the feeling that she's being watched. **Goals:** To stay alive, come what may, and serve with honor and vigilance as dependable friend and comrade to her fellow soldiers.

History

Pre-RP

Isuzu was created as one of the first batch of NH-29 series Nekos. She and her sisters stayed for 2 months at a Star Army facility at an undisclosed location in the [Jiyuu System](#), where their handlers kept them under close observation. This was to confirm that they would not exhibit any behavioral abnormalities, just to be safe.

During this time, Isuzu was trained to be a technical sentry, mainly via direct downloads of the relevant information into her brain. She also received some hands-on training from her handlers, and occasionally helped out with some minor maintenance work around the facility.

At the end of the two months, Isuzu's handlers declared her physically and mentally fit for duty. She stoically bid goodbye to her handlers, and was sent to an interim posting in the [Fifth Expeditionary Fleet](#). For four months, Isuzu assisted in the repair and restoration of [Hotaru Star Fortress](#), until she recieved her transfer orders and was assigned to the [YSS Celia](#), flagship of the [Third Expeditionary Fleet](#).

Service Record

YSS Celia

Assigned to Security detail under Ittô Heisho Sixthree Tangozulu.

Grace Under Fire: Spelunking

Assigned by Shosa Sasaki Sakai to investigate the wrecks of an unnamed Bellystabber-class pirate vessel and an unnamed Vampire-class escort craft. The wreckage was found in the vicinity of the merchant vessel *Graceful Jaunt*, which was at the time being boarded by the 'free ship' *Nero*. Investigations were completed without incident. Awarded one(1) service medal for successful completion of this mission and promoted to rank [Ittô Hei](#).

Pisces Station

Assigned to general Security detail.

General Duties

After the Battle of Valaad in early YE 30 brought to light the poor combat readiness of the [Third Expeditionary Fleet](#), the [YSS Celia](#) was moved to dry dock for a much-needed refit. Kuroaki Isuzu was temporarily reassigned to [Pisces Station](#), to assist with the [International Relations Conference of YE 30](#). Though she was assigned many (often unpleasant) tasks in her time on [Pisces Station](#), Isuzu served primarily as a field commander for security details around the station. On the first day of the conference Isuzu's team escorted the attending senators of Yamatai to the station.

The Arrest of Melisson

On the second day of the conference, Isuzu was given temporary command of the conference area security detail, and was subsequently ordered to evacuate the conference room and arrest the Mishhuvurthyar representative, [Melisson](#). This attempt ultimately ended in failure when [Melisson](#) disorporated her own body, but not before she gave Isuzu a message to deliver. When Isuzu forwarded her records to SAINT in order to determine the proper manner in which to handle [Melisson's](#) message, she was informed that this information now under SAINT's purview, and she was advised to forget about

the incident- *or else*.

Reassignment

While on [Pisces Station](#), Isuzu was ordered to report to the [YSS Akigumo](#) as her next duty station, but after the incident with [Melisson](#) she requested a change of orders, forfeiting her chance to return to the [Fifth Expeditionary Fleet](#). She also applied for, and was granted, permission to be upgraded to the [NH-29](#) stealth variant body, ostensibly because it would allow her to bring greater flexibility to her new posting: the [YSS Moirai](#), a small [Kyaa-class Search and Rescue Vessel](#).

YSS Moirai

Assigned to Security detail and Engineering.

Mission One: Prologue

Upon arrival at [Anisa System](#), Isuzu reported her new assignment, the [YSS Moirai](#), and delivered her authorization for upgrade to the [NH-29](#) body to her commanding officer, [Shoi Kohosei Galar Vanatosk](#). Unfortunately, an unexpected exception occurred during the upgrade process and Isuzu's growth was halted at the Youngling stage. To minimize the time she would spend at reduced operational capacity, Isuzu's metabolism and growth cycle were accelerated.

Skills

Maintenance and Repair

In order to facilitate her duties as a technical sentry, Isuzu received extensive training in the maintenance and repair of Star Army shuttles, power armors, and starships. She is adequately proficient at doing maintenance and repair work on any ship model as a part of a team, and at repairing a shuttle or a power armor with the proper tools. Isuzu is also somewhat proficient with the maintenance and repair of Star Army ground vehicles.

Communication

Isuzu is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc. Isuzu is also capable of telepathic communication. Isuzu is fluent and literate in Yamataian, Nepleslian, Phodian, Lorath and Mishhuvurthyar.

Fighting

Isuzu received hand-to-hand combat and ranged combat training. She is skilled and experienced in combat, both in Yamatai-like conditions and in zero gravity, with and without weapons. Weapons she is trained in include energy pistols, energy rifles, grenades, knives, and power armor.

Technology Operation

Isuzu is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

Mathematics

Isuzu received basic mathematics training, to including up to algebra and trigonometry.

Vehicles

Isuzu is trained in and adequately proficient at operating all models of Star Army shuttles currently in service, as well as most other small airborne or space-based vehicles, such as hover-bikes, small airplanes, etc. She is also somewhat capable of operating tanks, cars, trucks, and other ground-based vehicles.

Engineering

In addition to the basic repair skills required of Technical Sentries, Isuzu has been trained the physical sciences, computers, electronics, and mechanical engineering. She is moderately proficient in the design, fine tuning, testing and modification of both known Star Army technology and new devices.

Inventory

Clothing

Star Army Uniforms

Note: Isuzu has taken advantage of the recent changes to uniform regulations, and has chosen the male-styled variant female uniform. She feels it de-emphasizes her relatively short stature and full figure, compared to the standard bodysuit.

- 1 Rank Pin, [Santô Hei](#), [Third Expeditionary Fleet](#)
- 1 Rank Pin, [Ittô Hei](#), [Fifth Expeditionary Fleet](#)
- 1 Rank Pin, [Ittô Hei](#), [Third Expeditionary Fleet](#)
- 2 Uniform Jackets, blue with red panels
 - [Third Expeditionary Fleet](#) patch on left arm
 - “Hinomaru” patch on right arm
- 2 Uniform Jackets, blue with red panels
 - [Fifth Expeditionary Fleet](#) patch on left arm
 - “Hinomaru” patch on right arm
- 2 pair of pants, light blue-gray
- 2 cotton undershirts, black
- 1 pair leather gloves, dark gray

- 1 bottle liquid body soap
- 1 stick of deodorant
- 1 toothbrush
- 1 tube of toothpaste
- 2 washcloths, white
- 2 towels, white

Electronics

- Electronic Money Card

Miscellaneous

- [Engineering Tactics Manual](#)
- Prototype [Universally Networked Scalar Array Field Emitter](#)
- 1 Lobster, frozen in suspended animation in a clear polymer block

Engineering Projects

Kuroaki Isuzu always prefers to have 'the right tool for the job,' and if the 'right tool' doesn't exist, she'll *build* it. She usually has several projects in various stages of development, though time constraints and lack of resources often prevent her from progressing past the design stage to actual prototyping and production.

Current Projects

- [Utility Goo](#)
- [UG Regulation Node](#)
- [UMC Utility Glove](#)
- ["Vardøger" Telepresence Drone](#)

Completed Projects

- [Universally Networked Scalar Array Field Emitter](#)
- [Yarvex Foam](#)

Finances

Kuroaki Isuzu is currently an Ittô Hei (Soldier 1st Class) in the Star Army of Yamatai Reserve. She receives a 50 KS weekly salary.
