Their influence has brought her to have loyalty to Yamatai, with a by the book kind of attitude, with a code of conduct that the military admired. While Wulf would have influenced her to have a strict adherence, her aunt Sakura's influence tempered that a little, for her creativity, mischief, and fun. She does like training, but she's willing to stop to spend time with her friend, and be there should her friend need her company.

Wulf might deny it, but he's a softy, and Luna knows she can have him wrapped around her finger.

History & Relationships

History

Luna came to being the night of the day she learned that her best friend [Fujiwara Saya](#) was pregnant. Because there were no younglings on the ship, Kiyo thought that it might be lonely for the youngling she now knew to be named Tsubame, so that evening, when she and her love Wulf Soban had their time, she decided to make her move and with his help, Luna began developing within her.

Unfortunately, Luna was forgotten about when things happened, but she was able to remember and realize that she was pregnant. Fortunately, with Saya being back, she had a medic that Kiyo trusted to deliver Luna into the world.

Since then Luna learned about being a Technician and gained the skills needed as her mother Kiyo has continued to train with her Aether Katana, [Silverlight](#). Some like her daughter [Luna Soban](#) have taken to calling her a Samurai though she'd been trained by one, she wasn't acknowledged as a member no matter how interested she might have been. Kiyo and Luna decided to go on a cruise that had malfunctioned and they were trapped in their seats, fortunately, they survived the crash landing on this cold frozen world. They managed to make it to an abandoned Star Army base that had a ship so while Luna got to working on it, Kiyo searched around for food and things they could bring before they left the planet.

Sadly, this wouldn't be the first time they crash landed, and themselves found themselves on Vice separated from each other, and being attacked by bad guys. Luna was rescued by Makoto and the

mother and daughter were soon reunited. Makoto had brought them to her safe house, and took care of the two before going out to complete her mission and then taking them off world.

The three were Star Army Reserve members then, but with the [Norian's arrival](#) brought them back to active status and they served on one of the ships that rescued the [Norian](#) people. Eventually Makoto, [Kiyo](#) and [Luna Soban](#) both returned to the [Capital](#) where the three had heard of the Colonial Initiative headed by [Ketsurui-Motoyoshi Katsuko](#) the idea intrigued them, and they wanted to go along but they also wanted to stay in the Kikyo Sector until Luna reminded them of some facts.

Later on, was the Hanami Festival, Luna decided to act as a guide to her [cousin](#) for a while before the two got separated. In her desire to make new friends, Luna had moved around to meet people like Hanako, her old captain and Aiko. She also for a second got to meet Rin of the Norian people. Unfortunately she had to move away from them.
