While serving in the [SAoY](#) she would upgrade to the [NH-17 Nekoalkyrja](#) in [YE 23](#) to be a better soldier. Later on she upgraded again to the [NH-29](#) in [YE 29](#).

Psychological

Sorano's family lived in Pagoda no Uesureya. Her father, Amida, was a soldier, and her mother stayed at home to take care of her and her little brother. Sorano was your typical military brat, and quite the tomboy. She got into her fair share of fights, something that Etsu was greatly displeased with. Sorano got her love of flying from her father; when he was home on leave he would take her flying in his personal aircraft. In [YE 14](#) at the age of 11, Sorano lost her father during the Second Elysian War. His death had a profound affect on her, and she vowed to one day serve the Empire as her father had.

Needing to provide for the family; her mother, Etsu, became an employee of [PNUgen Corporation](#) and in [YE 18](#) the family moved to [Ketsurui no Iori](#) when her mother transferred jobs to [Ketsurui Zaibatsu](#). During this time, Sorano had to take care of her brother Kisho as well as attend classes.

Even before Sorano's preliminary education came to a close in [YE 21](#) she started making inquiries about the military. On the day of her graduation Sorano signed up to enlist in the newly formed [Star Army of Yamatai](#). It was during this time she displayed an aptitude for fighters, both atmospheric and space. During the [Fourth Elysian War](#) in [YE 23](#) she was promoted to [Shoi](#) and given command of her own fighter squadron. In [YE 25](#) Sorano served aboard a [Kyoto-class Carrier](#) and commanded a wing of fighters along with being promoted to [Taii](#). During the start of the first [Mishhuvurthyar](#) in [YE 26](#) her unit was frequently in the thick of combat normally providing support for battle groups.

During [YE 27](#) Sorano continued to climb the ranks, in part due to her skills, and due to the heavy losses the [Star Army of Yamatai](#) experienced during the protracted campaign at [Xyainbor](#). In [YE 28](#) she rose to the rank of [Taisa](#) and was given command of her first carrier, a Byakko-class carrier.

In [YE 29](#) Sorano chose to upgrade to a [NH-29](#) body to better serve the [Star Army of Yamatai](#). She also was promoted to [Shôshô](#) and given command of her own battle group. She would lead her group through many battles until the end of the war against the [Sfrarabla Mishhuvurthyar Xhrafuklurp \(SMX\)](#) in [YE 30](#).

At the start of [YE 31](#) Sorano was considering either taking an assignment as the Commandant of one of the [Star Army of Yamatai](#) training centers or retiring. However, she discarded that idea when the [Second Mishhuvurthyar War](#) broke out. Later she was assigned to the position of [Taisho](#) of the [Second Expeditionary Fleet](#).

[YE 32](#) Sorano oversaw the rebuilding of the [2XF](#) and the completion of its new Headquarters [Libra Star Fortress](#).

[YE 33](#) Sorano visited [Veronica](#) aboard the [YSS Yamato](#) to observe the installation of [2XF](#) defenses for the system. In the Fifth month of the year, the [2XF](#) launched a major assault against the NMX forces blockading the North Gate.
