Physical Characteristics

Height: 5'6" Mass: 123 lbs Measurements: 40-27-34 Bra Size: 40G

Build and Skin Color: Her build is what you would normally imagine on a Neko. Slender, but still some barely noticable muscle growth. Her skin seems to have a slight tannish color, as if she spent a summer sunbathing.

Facial Features and Eye Color: Her lips are somewhat small, giving her the appearance as though she is constantly biting her lip. Her eyes are very feline and slanted downwards as if carrying a worried expression. The eyes themselves are a beautiful violet, earning her an occassional compliment on them.

Hair Color and Style: Probably the most out of place thing about her though, and quite often the first thing people notice, is the color of her hair. It has a milky white color to it, which she assures is not dyed at all. The hair itself is almost shoulder length, the bangs hanging down -just- above her eyes and out of sight. She also has a small bit of hair in the back that she allows to grow, and it is tied into a small braid that lays between her shoulder blades.

Distinguishing Features: Aside from her appearance, none. She's a neko, after all.

Psychological Characteristics

Personality: Kaida is a self-proclaimed sharpshooter, and prides herself on her natural accuracy. (Without the assistance of technology, that is.) In combat situations, so long as she has a rifle in her hand, she is very calm and quiet. She is receptive to orders, and abhors leaving an enemy alive.

However, she seems to have an aversion to targeting systems and the like. Outside of informing her where her enemies and allies are at, she doesn't use it. However, this only applies to machines outside of her own body. Her own computerized brain she uses willingly.

Outside of combat though...

Spaz is a word she is often called. When not directly threatened by an enemy or without a weapon in her hand, she is very high-strung and will freak out at little provocation. She also seems far more paranoid out of combat than in it. (MEGAMI is watching her.. always plotting...) This is not to say she cannot be calm. It's just that it's easy to get her to start panicking.

She is actually quite modest, and dislikes her uniform. (But wears it anyway.) Romantically, she is fairly oblivious. She reacts very shyly to advances that she actually catches the meaning of and will often try to come up with an excuse to leave the room. That said, she is naturally very kind, but her fear of others tends to get in the way of that.

She also likes trying new food, of all things. If she hasn't tried something, she will try her hardest to acquire a sample.

Being a natural born Neko, she believes her body is a gift from her mother, and fiercely rejects the idea of body transfers. She sees changing bodies as an insult to those who created the person in the first place.

Likes: Rifles, Showing off her skill with it, Small fuzzy animals (Kitty!), Playing with her anti-gravity settings, New food **Dislikes:** MEGAMI, AI targeting systems, Surprises, People who call her 'spaz', Fully automatic weapons (Hit the first time, you don't have to shoot again.) **Goals:** To be the best 'natural' sniper in the galaxy, both in space and on a planet. She dreams of being able to 'beat the machine'.

History

Family (or Creators)

Mother: Eri Nagamira -deceased, died in battle

Pre-RP

Kaida was birthed by a Neko who had been in active service within the 5th XF. She never knew her other parent, but her mother helped raise her on board their ship. One day, when she was 6 months old however, during a mission to defend against the Mishhu invasion, Her mother's targeting on her PA failed after taking numerous hits over the long battle. This caused her shot to miss, which allowed her opponents the chance to shoot back, killing her. The homebase of the fleet, Taiie, was also destroyed during the fight, destroying the backups along with it. She herself managed to escape along with a couple others. Kaida became paranoid of machines and believes them to be untrustworthy. Of course, being surrounded by said machines makes for an uneasy life for her.

Two months later, she made up her mind to enter active service, to prove to the galaxy that the Nekovalkyrja are better than any of their AI's.

(I know it's short, but her life leading up to now is short too.)

Skills

Communication

Kaida is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from others through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. She is fluent in Nepleslian and Yamataian. She can speak and write both correctly and efficiently and can write reports, fill forms, issue orders under fire, etc.

Fighting

Kaida received hand-to-hand combat training, followed up with a rigorous training program. She is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons she is trained in include energy pistols, and power armor, but while these things she can use, she is not efficient with them. Her skill with melee weapons (such as knives) is also somewhat lacking, but she is working to correct that in her spare time.

- **Sharpshooting:** Kaida's true specialty and proficiency lies in rifles or similarly long ranged weapons. This comes at the cost of not being as skilled with other weapons such as pistols or other close ranged weapons.

Technology Operation

Kaida is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. She is proficient in entering and/or searching for information.

Mathematics

Kaida received basic mathematics training, to including up to algebra and trigonometry.

Culinary

While not a five star Chef, she can cook her favorite meals without difficulty, and is always trying out new things. That said, she has shown interest in learning more about the finer points of cooking.

Domestic

Kaida's mother was quick to make her learn to take care of herself, cleaning, basic cooking, washing her clothes, and so on. That said, she is a little disorganized, but never enough to be considered a 'mess'.
