- Measurements:

**Build and Skin Color:** Ari has stocky build, kept muscled and slim by farm life. His skin tends to stay pale and burns rather than tans.

**Hair Color and Style:** His hair is blonde and kept short. It fades from an unruly inch and half at the top of his head down to skin at the sides.

**Distinguishing Features:** His hands are covered in thick callouses that are obviously from hard work. A layer of tiny nicks and scars run across his knuckles.

## Psychological Characteristics

**Personality:** Ari is friendly and kind, with the breed of stoicism and drive that comes from seventeen years of honest hard work on his family's farm. He's motivated, having so far spent his military career training to do what he's dreamed of his whole life and lacks both the cynicism and the wisdom of a more experienced pilot.

- **Likes:** Engines, Fighters, Anything Fast, Hard work (especially mechanical)
- **Dislikes:** Harsh language, Anything with tentacles, Math that doesn't involve engines, farming
- **Goals:** Becomes a fighter ace and see the galaxy!

## History

### Family (or Creators)

- Father- Okada Saeming
- Mother- Okada Sei
- Twin sisters- Kumi and Anne age 14
- Brother- Hisashi age 10

### Pre-RP

Ari grew up the world of Anisa, working on his father's small farm from the time he could walk. From a young age though Ari dreamed of space. Even he doesn't know how it started, but as far back as he can remember his walls were decorated with posters of space fighters and the pilots who flew them. As he got older, Ari took to anything with an engine, the larger the better, to satisfy him and, when finally turned 17 he wasted no time in enlisting.

# Skills

## Communications:

Ari is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. He is fluent in Neplesian and Yamataian. Ari can speak and write both correctly and efficiently, and can write reports, fill forms, issue orders under fire, etc.

## Fighting:

He has received hand-to-hand combat training, followed up with a rigorous training program. Ari is skilled and experienced in combat both in Yamatai-like conditions and in zero-gravity, with and without weapons. Weapons he is trained in include energy pistols, knives, and power armor as well as the grenade and energy rifles expected of enlisted soldiers.

## Technology Operation:

Ari is capable of operating any computer system that uses the Kessaku OS, found on all Star Army starships. He is proficient in entering and/or searching for information.

## Mathematics:

Ari received basic mathematics training, including up to algebra and trigonometry. And he hates it.

## Maintenance and Repair (Cars, Trucks):

He spent much of his time growing up learning and working on the vehicles of his father's farm. Ari's developed not just a knowledge of how to make engines work, but also how to repair them on the fly with little spare parts. At least to keep them working long enough for a proper repair.

## Starship Operation (Fighters):

Ari loves to fly and has a knack for it, but it's not second-nature to him like it is to some. He didn't graduate flight school top of his class, but he did clock the most simulator time, study harder, and study later than the rest. Ari wants to be the best, and he's put in the hard work to get there.
