## RP History

- Pre-Mission One: [Hajime!](#) <sup>1)</sup>

Muyomi and the crew get briefed on their fight to get to Kuvexian space and take on the adversaries to [Star Army of Yamatai](#).

- Mission One: [Ichi](#) <sup>2)</sup>

The squadron of Plumeria were confronted with pirates and took out three [Caravan Heavy Freighter](#) and several [Ge-L3-1A - Vampire-Class Patrol Craft](#). Inside the Caravan were hostiles outfitted in Docile that the away team must destroy. Two out of the three Caravan were taken out via demolitions and the Kaiyō's weapons systems. Two prisoners were taken.

- Post-Mission One: [Yame!](#) <sup>3)</sup>

Muyomi and the crew gets debriefed. Trust falls and teriyaki dinners ensue.

- Mission Two: [Ni](#) <sup>4)</sup>

An unknown craft is spotted and [power armor](#) filter out of it. While engaged in a ruthless battle with the power armor, an NMX Neko in a [Reaper Power Armor](#) shows up and shoots down the pilot of the craft, a shuttle that has a self-destruct button. The button is pressed by one of the enemies and the shuttle explodes with all of the enemies.

- Mission Three: [San: Kaizen](#) <sup>5)</sup>

A fleet of L'Kor are engaged after [Star Army Intelligence](#) is able to give the Sixth Squadron more information about the enemy, now known as the L'Kor. They are able to read them [Rights of Early Contact](#).

#### **Quote from Mission San: Kaizen!**

Another infantry, Muyomi Peio, had her back and took aim at the L'Kor power armor that was shooting at her, pulsing out with her Ke-M2-W2906 shoulder-fired missile pod a volley of ten missiles, blowing up the power armor in an explosion of shrapnel that Mitsuko would find herself having to avoid. It caused chaos within the ranks and several L'Kor took to flight and others simply stepped or thrust back. "Thanks, Muyomi-hei!" Leeta sighed out, "But missiles? When you knew we'd be in close quarters? Really?" Muyomi Peio chuckled with a nervousness before re-aiming and readying to fire. The rest of the Neko that had just arrived did so, as well.

- Mission Four: [Shi: Komorebi](#) <sup>6)</sup>

The planet [Komorebi](#) is determined to be safe and is also uninhabited. The Sixth Squadron seeks to investigate more about this planet and each of the ships deploys teams to uncover the planet's secrets. While down there, one crew member touches some oozing red liquid and starts hallucinating while another falls hundreds of feet and is impaled. Deciding to head back, most of the team prepares to leave while Amanozako and Mochi go to investigate a path that led them to a shuttle and bomber, which the sixth squadron begins to tow away.

- Post-Mission Four: [Shinjitsu](#) <sup>7)</sup>

The Kaiyō crew goes through a trust exercise again, this time playing "one truth and a lie" where the crew went around the room and told the rest of the crew one truth about themselves and one lie and the rest of the crew had to guess as to what the truth was and what the lie was.

- Mission Five: [Go: Dōshiyō](#) <sup>8)</sup>

The crew are awakened to find that [NMX Forces](#) are attacking the squadron. On board is one Ghost [Mishhuvurthyar](#), as well, which phases broodlings into the captain, Teien Eden. There are two main areas of fighting; in the cargo bay and in the power armor bay. Mitsuko is the hero of the cargo bay, utilizing [tankettes](#) and a [SLAM](#) against an [Advanced-Type Mishhuvurthyar](#) while Meissa takes command of the power armor bay. While the samurai, Rei, is tasked with killing the Ghost Mishhu in the wardroom with her [SARAH](#), Aiko the Princess takes the lead in her [Kirie](#) by killing an Advanced Type at Meissa's urging in the power armor bay. It is a pyrrhic victory for the Kaiyō.

- Post-Mission Five: [Wabi-Sabi](#) <sup>9)</sup>

The Kaiyō crew get some much needed shore leave in [Kyoto](#) as the Kaiyō is repaired. Many members of the crew go to the beach

- Mission Six: [Roku: Genjitsu Tōhi](#) <sup>10)</sup>

The squadron comes into contact with an [SAoY escape pod](#) and contacts it. In it is, surprisingly, an old friend of Eden's as well as some of her crew. They make plans to rendezvous with the escape pod as soon as possible. Using Quantum Encryption technology, the [BIES](#) of the escape pod notices monitoring attempts on their communications with the squadron and they counter it. The squadron loses contact with the escape pod soon thereafter. The Kaiyō set out to find the escape pod, but when they got to it, it was burned to a crisp. While this happened, Kikyō, Eden and Saki's daughter, was born. Soon, three cruisers and ten bombers uncloaked themselves and engaged the Kaiyō in battle. Within minutes, they hailed the ship and the enemies were identified as the [Elefirn](#). Teien Eden ordered all power armor units to retreat, had her pilot maneuver the ships so that they were lined up, and shot the aether shock cannon at them. When that happened, though, the Kaiyo's sensors went one way and another, the view screen went blank, and there was a great amount of turbulence. When Eden picked herself up, she was looking at a view screen that showed her own ship.

#### Quote from [Mission Roku: Genjitsu Tōhi](#)

“Oh, Empress!” Muyomi shouted when she had been struck by the last remaining bomber's fire and she noticed blood pool out of her Mindy and crystalize in space. “Th-they've...” Muyomi worked to speak with difficulty as the enemy fire had pierced her lung and gone out the other side of her armor. “They've got aether...”

- Mission Six Part Two: [Roku:Genjitsu Tōhi Pt. II](#)

Eden was hailed by the look-alike ship and found herself staring back at herself. She called for Saki and onto the bridge of the other ship came her wife, but this one was captain and was far more aggressive than the Saki she knew.

- Mission Seven: [Mission Shichi:Yugen](#) <sup>11)</sup>

The ship got back to the Kikyō Sector

- Pre-Mission Eight: [Pre-Mission Eight:Kaminari](#) <sup>12)</sup>

The captain changed over to be [Taiyou Hoshi](#) while [Teien Eden](#) was to become XO.

- Mission Eight: [Mission Eight:Hangeki](#) <sup>13)</sup>

The Kaiyō II crew went to re-take a L'Kor planet.

- Mission Nine: [Mission Nine:Mamemameshi](#) <sup>14)</sup>

The [SOFT 501](#) is halved in this mission as an entire station is taken on by the Kaiyō II.

- Mission Ten: [Takaromono](#) <sup>15)</sup>

Temple of the Stars is surveyed. Muyomi cared for those that had met with an [Avatar](#).

- Mission Eleven: [Sakidō](#) <sup>16)</sup>

[Ayenee](#) was to be the crew's new base of operations. What better way than to do a planetary scouting to

start?

- Mission Twelve: [Naze Sorairo](#) <sup>17)</sup>

Muyomi did very little during this mission.

- Mission Thirteen: [Miyabi](#) <sup>18)</sup>

The crew were sent to investigate [Planet H](#) and in the process, Muyomi killed Kuvexian enemies and cared for her wounded friends.

- Mission Fourteen part one: [Uekiya pt. I](#) <sup>19)</sup>

An enemy bridge was taken, Muyomi did her part and was most notable for guarding blast doors.
