## Physical Description

6'3, heavily muscled, dark brown skin, icy cyan eyes, shoulder-length coal black hair normally in a bun, heavily tattooed arms, 9 o'clock stubble, gravelly voice and always smells like woodsmoke.

## Personality

Rein keeps a stoic, professional front mostly thanks to his ancestry, though his front does crack for specific, persistent people. He has a dislike for people who don't do their jobs and unload it onto others but admires those who dutifully accept such extra duties. His goal in life is to live it to the full and hence he is a little bit of a hedonist. He has a habit of playing with anything that comes to his hands absentmindedly, such as pens and such. Most things that might anger others roll off him like water from a duck's back apart from constant pestering. He's just the right balance of bold and cautious but he gets extremely attached to those he grows close to, in his mind there's no reason to turn away someone you enjoy the company of.

## History

Rein Sif was born in [YE 12](#) in the city of Hiroshima, Yamatai. His father came to Yamatai on business for several years, a Nepleslian trader who moved to Yamatai to pursue new opportunities. Growing close to

his mother, he got her pregnant, leaving as soon as he realised what he had done. With his mother raising him alone, he grew up filling the place his dad left behind, becoming more masculine than many others. To make up for the missing part of her and his life, they went on numerous excursions whenever possible, valuing fun over most else.

After many years of living life that way, Rein got into a gang, did a lot of morally broken things and discovered a darker side to himself than he'd thought he had. Eventually, he turned in himself, the others in the gang he had joined and worked totally with the local police; apparently because he felt what he did was wrong but in reality it was just because he felt too restricted by them.

He went to the Star Army pretty much for a dare, his instructor acting almost as a father figure he never had, whom he grew quite fond of. His instructor, being an ex-MP urged the man to follow as he did, realising he needed more straightening out. Rein completed his basic training, meeting [Arete Surinus](#) before completing an additional course with the [Star Army Military Police](#). Now, he takes this role seriously out of respect for his pseudo-father but most else he does he would veto in the name of fun.
