Physical Description

- Height: 4'6"
- Mass: 130 Lbs.
- Measurements: 29D-23-46

Sadow Masami is an extremely short-statured, yet full-figured Nekovalkyrja. Her form has a voluptuous hourglass-like profile, although with more mass concentrated in her lower body than in her upper body. She has strikingly broad hips, along with an *immensely* plump set of buttocks and thighs which possess both fat and muscle in ample amounts. Masami also possesses a well-muscled core and back, which adds balance and stability to her buxom figure.

Her face is soft-featured and feminine, while taking on a diamond-shaped profile. As such, she possesses a narrow forehead and a narrow chin, which are balanced by wide cheekbones and full **ombre violet** lips. She has a slender, slightly angled nose which adds subtle definition to her features. Masami's eyes are very reflective of her synthetic Nekovalkyrja nature. As such, their irises are **bright yellow** and relative to the rest of her face, they are **extremely large**, almost uncannily so. Her skin is a deep shade of **brown**, **with golden undertones** which stand out even when viewed under dim lighting.

Masami's features retain the standard Neko-style ears. They have a thick lining of **violet** fur along the exterior, which matches the color of her hair. She tends to wear her hair with **thick bangs and a high bun**.

Personality

Sadow Masami is a passionate, yet incredibly relentless Nekovalkyrja. As an enlisted soldier within the Star Army of Yamatai, she considers herself to be a specialist in violence, and as such, she has no qualms about engaging directly with the brutal realities of her job. In fact, she views combat as a thoroughly addictive experience, yet simultaneously as something to be moderated and optimized with rigorous discipline, intense physical training, and meditation. As an individual, she is passionate and motivated by a fervent patriotism. She is quick to fall head over heels in love, and she is very attuned with her own emotions to the point where her moods seem more unpredictable than they actually are.

History

Sadow Masami was synthesized and given form in the seventh month of YE 40 on planet Nataria in a **Type 30 Mass Cloning Facility** based within the **Nataria Fleet Depot**. After the activation of her

personality, Masami received her first orders as an enlisted soldier within the Star Army of Yamatai. She then underwent socialization training, which facilitated the development of her personality and her cultivated her knowledge of Neko-Yamataian culture. After she completed socialization and standard basic training, Masami was directly assigned to the [YSS Kaiyō II](#).

Later on, Masami requested a transfer off the *Kaiyō II*, intending to undergo Infantry training at [Black Sands Test Range](#). After this, Masami was assigned to the *YSS Azalea II*, to serve under Chui [Hotaru Sasaki](#) in a mission to Kuvexian space.
