## History

### Family (or Creators)

Sam is an orphan.

### Pre-RP

Sam doesn't remember much of his childhood. For whatever reason, it's just blank, which is fine. It is best to leave the past in the past. The training at Fort Ready wasn't easy, and it took all his focus just to graduate with a passing grade. He was eager to begin his career with the Star Army. YSS Eucharis encountered an advanced alien artifact consisting of a crystalloid base and mass driver on Splorfin I 14. He was curious to learn more about this artifact. And as the away team was attacked by alien hostiles, he was fairly certain they could use a little infantry help, so he made a request to be assigned there.

### YSS Eucharis

- Briefly glanced Joto Hei Murakami Mitsuko's standard profile while in a Daisy, but not officially introduced.
- Got shot up by midgets in first mission. (Mission 22.2)
- Spent 3/4 of the holiday looking for some clothing after waking up nude in medical, then wasted what was left of the holiday wandering around and doing nothing. (Post Mission 22)

## Skills

### Communication

Sam is familiar with basic radio operation and procedures and can make transmissions to and receive transmissions from other characters through headsets, starships, power armor, and shuttles in both combat and non-combat conditions. Sam is fluent in Nepleslian and Yamataian. He can speak/write both correctly and efficiently and can write reports, fill forms, and issue orders under fire.

## Demolitions

Sam is great with identifying bombs, making bombs/grenades, handling bombs, disabling bombs, and bomb placement.

## Fighting

Sam received hand-to-hand combat training, followed up with a rigorous training program. He is skilled and experienced in combat both in normal conditions and in zero-gravity, with and without weapons. He is trained to wield energy pistols, energy rifles, grenades, knives, and power armor. He doesn't have a best weapon as he spent an equal amount of time training in each area.

## Mathematics

Sam received basic mathematics training, and knows how to use a calculator.

## Starship Operations

As Sam planned on being aboard a ship, he took extra courses on Astrometrics and navigation, so he could function as a back-up pilot as necessary.

## Survival and Military

Sam is pretty good at finding water in a wilderness, navigating with a compass, building natural shelters, hunting beasts of all shapes and sizes, hand signaling, and applying camouflage cosmetics.

## Technology Operation

Sam is capable of operating any computer system that uses the Kessaku OS, which is found on all Star Army starships. He is proficient in entering and/or searching for information on shipboard computers.
