Physical Description

Suigetsu Kyōku has a small bust, only a B cup, and a thin, lithe body that stands over five foot five inches. She weighs 110 pounds and is prone to floating rather than walking. She has silver hair that has touches of purple to it throughout when it shines in the light a certain way. She keeps straight bangs and the rest of her hair is extensively long and flows down and goes well past her knees, curling at the ends. She has light violet, pink eyes that gleam excitedly as she speaks and smiles, which is a toothy grin as she has peculiarly long canines and peach-toned lips. Her skin is beige like very, very creamy [Coffee](#). She has non-standard Neko ears that sit at the top of her head and are the same silvery white as her hair with pink tufts the same color as her eyes in the centers. There are mounds of greyish purple eyebrows above her long, thick eyelashes and she has a small, perky nose. She has facial markings that look like two whiskers on either side of her face on her cheeks.

Personality

Suigetsu Kyōku is cheery at times and stern at others. She knows which moods suit which scenarios and circumstances and works well within those parameters that the situation sets. She is renowned for her ability to look at what needs to be done and have others do it well while looking as if she didn't have to lift a finger. When her cool facade is torn down by incompetence of those below her, she gets peeved and often overcomes their inabilities with the hard work of her own.

If there is one thing she is not, it is a flirt. She has had her time romping in [nest pits](#) and sees it as a part of her life that has come to a close. She retains a few close contacts and friendships from a time before when her serious outlook on personal relationships took over and she looks at those as the exceptions to her rule.

History

Suigetsu Kyōku was born in [YE 20](#) as an [NH-7 Nekoalkyrja](#), one of the first. She was born into the [Army Of Uesureya](#) and helped conquer [Albini](#) as an [infantry](#) soldier. She was present a year later when [Ketsurui Yuumi](#) was crowned and a part of the many that were about for the founding of the [Grand Star Army](#). She helped conquer the [Ralfaris](#) as an [infantry Neko](#), again. In the [Second Draconian War](#) she became one of the foremost power armor pilots once they started to be used in the war effort against the [Jaaq'tah Alliance](#). She became especially helpful to have both inn space combat and on the ground fighting.

After that, she was stationed to undergo officer training at the newly formed city of [Kyoto](#). During this war, she was transferred to a [NH-17R](#) body. She continued on to be a part of the Star Army of Yamatai's effort to help the [Nerimian Defense Initiative](#) beat the same enemy she had been fighting in the Second Draconian War. She continued to fight when the [Qel'noran](#) needed to be defeated, and were.

As a part of the [Third Expeditionary Fleet](#), she worked on finding enemies in [YE 27](#) and the next year, she soon became embroiled in the war with the [SMX](#). She was a part of the recapture of [Hoshi no lori](#). In [YE 29](#) she transferred to a [NH-29](#) body and was killed in that body, as well, in the travesty of [Taiie no lori](#) in that year. She was present for a new crowning of an Empress, this time [Ketsurui-Motoyoshi Katsuko](#) in [YE 30](#). Later that year she is transferred to the [Ninth Fleet](#) and is asked to help in retaking [Tami System](#). This would be the last time she transferred fleets.

They were all swept up by the [Second Mishhuvurthyar War](#) and she lost bodies and gained bodies. Lived horrors she would soon forget, but later. The recordings from MEGAMI showed a unique and bitter tale of life for her, and so many of her Neko sisters. When [Hokusai Akiyo](#) took command of the Ninth in [YE 34](#), she was sent out with the twenty [Urufu-Class Light Cruiser](#) that were sent off under Hokusai's direction. She then began to be one of the foremost leaders in creating the change under the new commander in [YE 36](#). They were to go after worlds taken by the SMX based out of Tami's surface. She worked her way up through ranks as she had done for all the years before this time. Within three years, Kyōku was asked to take over command of the Ninth Fleet.
