## Physical Description

- **Height:** 4'9"
- **Mass:** 175 Lbs.
- **Body Measurements:** 29M-27-56

Bearing flamboyantly multichromatic features, Tokyo Violet is gifted with [light blue](#) skin, [cyan-magenta](#) heterochromatic eyes, and [deep purple](#) hair. In order to harmonize the color of her plump lips with the deep purple hue of her hair, Violet typically projects [dark purple](#) color over them which also matches the shade of the hair in [her eyebrows<sup>1\)</sup>](#). Her facial profile is a balanced ovular shape which is defined by her gently curved jawline and wide forehead. She typically cuts her hair in a [short style](#) that heavily emphasizes the nigh-extreme length of [her pointed ears](#).

Tokyo Violet possesses a heavysset and physically robust figure that is voluptuous even by the standards of unaugmented human women. Aptly described as a “shortstack”, her body has a hourglass-shaped profile which leans towards being more bottom than top-heavy. Her thighs are massively plump and form into a set of correspondingly corpulent buttocks which have an abundant steatopygian “shelf” that conspicuously juts out past her shoulders. From there, she maintains a subtly-defined, yet strong core which supports the weight of her extremely generous breasts. Her shoulders are slightly narrow, but lead into softly-muscled biceps and forearms.

## Personality

Tokyo Violet has the typical personality of a newly-created Nekovalkyrja Sprite, in the sense that her mind is a *tabula rasa*. However, her temperament tends toward the Supine. As such, Violet is heavily dependent on receiving approval and acceptance from others. Her passive disposition, especially in the context of social situations, is what drives her to succeed at any task that she puts her mind to, in the hope of receiving the praise that fuels her self-esteem.

## History

Tokyo Violet is one of the hundreds of Sprites under the command of the YSS Tokyo's [KAMI](#), [Tokyo Himawari](#), in order to crew the massive Izanagi-Class Dreadnought. Created with the basic skills of a starship operator, Violet was designated as a weapons officer upon her first assignment.

## Skills Learned

Tokyo Violet has the following notable skills:

- [Star Army Common Skills](#)
- Starship Operations: Tokyo Violet was created with specialization training in starship operations pre-loaded into her digital mind. Although she is capable of fulfilling all virtually all roles on the bridge save for command, Violet specializes in combat systems and weapons operations. Utilizing her digital mind, Violet can control hundreds of weapons. However, her mental reaction time and ability to quickly process information is not yet fully optimized or trained. In addition, the management of the hundreds of weapons on the *YSS Tokyo* is extremely mentally and physically taxing to her, due to the vast amounts of processing power required to execute the programs associated with tracking, filtering, and responding to sensor data from hundreds of turrets and transmitting commands in response.

## Social Connections

- [Tokyo Himawari](#) - *Onee-Chan*
