[PERSONALITY]

Analysis: Vera Annesdottir reveals herself as a stark opposite to her Clone Mother, Annelise Strixdottir. A bubbly, excitable, bright-eyed personality with animated expressions and upbeat attitude. Surprisingly, Vera contrasts Annelise in a complementary way, and does not clash with her personality like most observation models record. This is likely due to her approach to her work and her core values, which closely mirror her mother's. Overflowing with persistence, efficiency, and satisfactory results; simply achieved in a different fashion. Observations from other Star Army personnel detail her ability to find the middle ground and provide unbiased opinions in an encouraging way.
