Physical Description

Measuring at 180cm and weighing 80kg, Yokota Tamafune's shoulders are slightly narrower than her curvy hips (98-53-98 measurements). With the exception of her hips, she has a slenderish build. She typically keeps her dark brown (with bluish tint) hair up with expensive hairpins. Her golden orange eyes help highlight her heart shaped face.

She normally dresses in clothing that gives off a cold eloquence like she is making the statement of “I keep my power in check because I want to”. Her arms have silver metallic “tattoos”, while her fingers are coated with the same material. She uses solid volumetrics whenever a “fingerprint” is needed.

Personality

On tests, Yokota Tamafune is classified as an ENTJ. The more extroverted among her synthetic “brothers and sisters”, Tamafune has a very forceful but friendly demeanor when dealing with both strangers and allies. Though despite that, she does not spend her time talking to anyone unless it furthers her plans (short-term and long-term) in some way unforeseeable by most individuals.

She knows when to speak her mind (most of the time) and when to be tactful to live another day.

History

Yokota Tamafune was created [YE 30.4](#) on [Tatiana](#). Based on the brain pattern of [Ryu-Mizumitsu Masashi](#), Yokota was taught and challenged on a curriculum of business, social, and moral training to ensure the AI was stable enough to be released for active use. Doing well, she was formally “commissioned” later in the year. She achieved full sentience in [YE 35](#) after being constantly present in Masashi's meetings and activities on [Nepleslia](#).

As her AI matrix is based on Masahi's “soul”, she has the right (as all other AIs he has commissioned) to use his DNA and modify it to match her chosen appearance to produce offspring. Should she ever find love as she is capable of experiencing life as an natural after upgrading to a [KAIMON/Ascendant Consort](#) in [YE 43](#).

Currently she continues her service with Ru-Mizumitsu Masashi as his business intelligence and counterintelligence analyst. She also functions as his public face due to how willing she is to interact with the public.

In [YE 44.3](#), Tamafune resigned from her position within the Ryu Keiretsu and moved to [Fujiko](#) to integrate with the [Nepleslian Reds](#). Supporting them in their efforts, she was hired to be a chief diplomat for the new united government of the Reds. In reality it was a ploy by Ryu-Mizumitsu Masashi to gain a foothold of influence within a raising Reds exploiting Tamafune's sympathies for them. A win-win proposition.
