## Physical Description

Zelphon is an above average looking person. Though some may see her as fairly sexy by standards of other races. She stands 5'8" tall from head to toe. She weighs around 100 lbs on a good day. She has long black hair which ends with white ends. Her wings are black that end with white tips. Her eyes are the purest of blue one has ever seen. Her bust to hip is an hourglass shape. She sports a modest cup size between C and D. Her form is lean yet thick in all the right places.

## Personality

Zelphon from the moment first meeting her it is clear she is a kind hearted soul. When she talks it is always with the upmost respect and looks to ensure all around know they are valued. By day she is hard working, going above and beyond to be the best she can be. However at night, she knows that this is the time to relax and is able to let go. This black and white nature is much like her colors of her wings. She is easy going and approachable day or night. One to never shy away from a challenge and take command of a situation.

One glaring flaw for Zelphon is that she does not do well with those who cross her. Her being very loyal can lead her to being at odds with herself. She aims to do good and act within the bonds of the laws but at times this can be truly tested.

## History

Zelphon Belmont was born 15日 4月 18 in [Empyrean](#). Prior to her time with the Belmonts, she was mostly a poor outcast orphan. She had not known her parents for long before being taken away in one of the wars. This would leave a lasting effect on her for the direction she'd take in her later years. It was not till she was found by the Belmonts that her life would take a change for the better.

Her early childhood was for the most part normal. Always found to be hanging out with the kids of the family. This was mainly Miko, Alastair and Remy. Each would leave a lasting impression on her as they came of age. Though she did have a time when she would rebel against the norms. This would be during her teenage years that this side would come to the surface. It was short lived and would go on to form into a well rounded adult.

Like most Belmonts, she found herself signed up to join Star Army. In her young she had learned much helping the family run their business affairs. As such going through basic training was nothing to really write home about. During this time she showed quickly she was quick to learn and able to lead. It was also during this time that a side none had seen before would manifest. While fighting the enemy she would show a high level of ruthless disregard for those on the other side of the trench. It did not go as far as being without mercy but for sure was noted in her record to be mindful of how off radar she would be allowed to go.

In short order Zelphon was able to prove herself to be a person destined for more within the ranks. As such she would find herself going to [Star Army Academy](#). This was after years of being in service to Star Army that she'd once more find herself back at school. Her one desire was to make a difference and move up the ranks to have an even bigger impact on those around her. One of her favorite sayings was, "to give a voice to those who have none."
