Frontier Logistics Service

Established early YE 39, FLS was the first branch of Frontier Service Corporation introduced to stimulate economic growth on planet 188604 and begin training the local population in spacefare.

About the FLS

Beginning with just three cargo ships flown by experienced, and overpaid, captains and chief engineers FLS was the first venture made by Candon Suites to begin his corporation on 188604. The first vessels would land and begin training willing locals on the operation of the ships, which would leave at the end of the month to begin a two month trading voyage. The vessels would bring with them the best trainees of the classes in a paid apprenticeship.

Motto

"Prosperity comes from sailing the void."

- Capt. Luka Tachi, first Captain to join FLS trade fleet.
