Osman Defense Force

Where ships cannot go the ground-pounders must. With extensive accelerated training the local populace of planet Osman were a natural choice to police Howard Station and Osman City during the tumultuous economic collapse of YE 40. Their controversial tactics of pressuring the public into the hastily restructured economic planning implemented by the [Frontier Banking Service](#) resulted in a mix of fear and appreciation as they also worked tirelessly to suppress both riots and terrorist activities. Viewed as both corporate bullies and public defenders, the various ground forces of FSCorp have distinguished themselves as capable soldiers with a wide variety of skills.

Howard Station Defense Force

Howard Station Space Force

Differing from the Naval assets task, HSSF is tasked with the close in defense of Howard Station's ports. They work closely with both naval and station bound assets to guide ships to docking facilities, perform routine scans, assist in emergencies, and restrict unwanted planetary landings. In order to do this they make heavy use of FSC's in-house variant of the [OI-M1-1A Ashigaru](#) mecha made from locally produced components(not for sale), along with U1 variable fighters and Wahoo interceptors.

- 50 [OI-M1-1A Ashigaru](#) FSC Variant.
- 30 [U-1 Production Model Variable Mecha](#)
- 20 [Wahoo Interceptor](#)
- 10 [Starbryte](#)

Howard Station Security

Trained in close combat and EVA tactics the Howard Station security force is leagues better than any team of corporate mall cops. This security force was present during the attempted takeover of Howard Station during the economic collapse of YE 40 during which they successfully maintained control of the station. It would take years to fully purge the station of all threats and are responsible for the corporate policy requiring all personnel to be armed in the event they needed to be deputized the future takeover attempts.
