

Geshrinari Private Bath

Some [Geshrinari Shipyards](#) provide a private bath for occupants of their ships.

A normal door opens into the room. The washroom is divided into two sections. The door enters into the part of the room with a basin and a mirrored medicine cabinet. There is a door that separates the commode and tub from the basin area. The tub features a shower head and has a fabric moisture barrier to keep the water in the tub. Hot water for the shower and basic comes from an on-demand water heater. The fittings in the washroom are typically chrome, and the floor is covered in ceramic tiles.

There is ceiling mounted lighting, as well as [Ge-Y1-E3104 - Automatic Fire Suppression System](#) dispersal nozzles through out the bath.
