

Geshrinari Utility Quarters

These are the rooms intended for short term paying passengers on [Geshrinari Shipyards](#) designed ships. They consist of a shared bedroom with an attached private bath.

A [standard ship's door](#) with a [Ge-Y1-E3103 - Intercom System](#) opens into the end of the room. Traditionally there are one or two sets of bunk beds. There are lockers located next to the beds. Depending on the ship one or more basic chairs could be added. A wall mounted view screen is provided which can also be used for entertainment. Beyond that through another door is a [Geshrinari Private Bath](#). The furnishing would tend to be of a basic quality about par with those used by crew members.

There is ceiling mounted lighting, as well as [Ge-Y1-E3104 - Automatic Fire Suppression System](#) dispersal nozzles through out the suite. The floor is covered in the standard floor covering for the ship.

Note: This type of quarters has the same footprint as the [Geshrinari Passenger Quarters](#) but allows double the occupancy.
