

Iemochi Applied Technologies

A subsidiary of [Iemochi Innovations & Sales](#), created as part of the company's rapid expansion plan. It seeks to increase the scope of IIS products to larger scale, such as small ships and larger modules. While it is very much still fledgling compared to the much larger shipyard companies around the universe, it fills its niche best it can.

About the Iemochi Applied Technologies

Applied Technologies was created by [Iemochi Chiyo](#) to facilitate the production of larger products in the civilian area to help [Iemochi Lifestyle](#) develop. After realising that the facilities allocated to Enkinpo could be used for other projects, he bought out a few local shipyards to allow the production of one or two ships at a time.

Headquarters

The App-Tech headquarters are located at [Empyrean](#), [Elysia Novus](#). They're not much to look at, mostly a couple of shipyards of reasonable size, several reasonably sized factories and a mediocre-sized office building to act as their headquarters. It's built in traditional Elysian style but with a few Yamataian influences.

Facilities

The company uses several dockyards and factories on [Elysia Novus](#), outside of [Empyrean](#) itself.

It uses collective [Iemochi Innovations & Sales](#) facilities.
