

Kagayaki - Anti-Hea Gel

Released by [Kagayaki Cosmetics](#) in [YE 39](#), Anti-Hea Gel was developed with the objective of achieving compatibility with the maximum amount of races and hair types while maintaining a fast-acting and efficient formula.

Manufacturer: [Kagayaki Cosmetics](#)

About Anti-Hea Gel

Anti-Hea Gel is a protein based and non-scented beauty product that is designed to get rid of body hair quickly and efficiently. A single bottle of Anti-Hea Gel contains millions of follicle scale micro-machines. The region of the hair follicle or hair shaft where micro-machines 'snip' the hair is dependent upon the variant of the product in question.

Cost (8 oz., Type 1, 2, 3, and, 4): 20 [KS](#)

Cost (16 oz., Type 1, 2, 3, and, 4): 30 [KS](#)

Compatible Races: All [NH-series](#) races/bodies, [Human](#), [Elysian](#), [Helashio](#), [Nepleslian](#), [Lorath](#), [Elf](#)

NOTE: [Abwehran](#) compatible product lines are not typically available in-store.

Application of Anti-Hea Gel

Anti-Hea Gel utilizes a fast-acting and highly advanced formula. It is recommended that the buyer select a variant of the product that corresponds to their hair type, to minimize the risk of ingrown hair or bumps. However, the micro-machines can also cut ingrown hairs. The product can be applied to facial, body, and pubic regions. Application consists of the following steps:

1. Clean and Dry Skin, do not apply any other non-micromachine based beauty products to the skin. The micromachines will recognize the presence of other micromachines on the skin and will work cooperatively with them.
2. Using clean and dry hands, apply the product *liberally* to the skin.
3. Wait ten minutes after application.
4. Wash the micromachines off the skin. The micromachines are hard-coded to self-terminate after an hour of operation. See the time chart below for reference.
5. Apply a moisturizer or after-shave after application.
6. Reapply weekly or as needed.

Variant	Face	Pubic	Body (Legs, Back, and Chest)
Anti-Hea Gel for Type 1 Hair/Straight	10 Minutes	15 Minutes	10 Minutes
Anti-Hea Gel for Type 2 Hair/Wavy	10 Minutes	15 Minutes	10 Minutes
Anti-Hea Gel for Type 3 Hair/Curly	15 Minutes	20 Minutes	15 Minutes
Anti-Hea Gel for Type 4 Hair/Kinky	20 Minutes	25 Minutes	20 Minutes

NOTE: If hair is particularly dense, add 10 minutes if you have Type 1, 2, or, 3 hair. Add 15 minutes for Type 4 hair.

Warning Specifications

Users should adhere to the following practices when using Anti-Hea Gel.

1. Do not apply Anti-Hea Gel to eyebrows.
2. Do not apply to wings.
3. Do not apply to head hair.
4. Keep out of eyes.
5. If used *simultaneously* with non-micromachine based beauty products, effects *may* include burning or itching sensations.
