

Kagayaki - Digi-nails

Manufacturer: [Kagayaki Cosmetics](#)

Digi-nails provide the ultimate versatility for customizing your fingernails. Simply attach the pads to your fingernails and then use the stylus to select your desired color.

About Digi-nails

Each pack of Digi-nails contains 100 Digi-nail pads of varying sizes, 1 digi-stylus, the pack itself is disposable and provides charging for the pads and the stylus. The pack has a standard data port for uploading personal images.

Each pad is a thin polymer, the surface of which is covered with electric-pigment cells, and the back is covered with an adhesive. These cells can be electrically charged to various colors. The pad has a micro-battery to keep the cells in their chosen state. The micro-battery charge lasts for 12 hours of operation. There is a small filament at the tip of the digi-pad that the stylus interfaces with.

Using the digi-stylus included with the pack the user selects their desired color and then touches the stylus to the pad. The cells then change to match the color. It is also possible to upload a pattern to the kit, and use the stylus to transfer it to the cells.

Size: Digi-Nail Pack (1) **Price:** 35 [KS](#)

Nekoalkyrja wishing to use Digi-Nails must also purchase Digi-discs, small rigid plastic pads shaped like fingernails with self-adhesive backs.

Size: Digi-discs 40 **Price:** 5 [KS](#)
