Cost (1 month Subscription): 20 [KS](#)

Cost (3 month Subscription): 45 [KS](#)

Cost (6 month Subscription): 90 [KS](#)

Compatible Races: All [Nekoalkyrja](#) bodies

Features

The features of the Eternal Beauty Nekoalkyrja Application are detailed below.

Facial Scanning, Sharing, and Remote Application

The Eternal Beauty Nekoalkyrja Application allows users to scan their faces and to upload their likenesses into a database. Through this feature, users can allow others to apply makeup to their faces in real time or on a virtual representation, depending upon the permissions they set for accessibility.

Forums and Chat rooms

The application features forums and chat rooms, where users can talk about beauty, relationships, sex, celebrities, fashion, fitness, careers, cooking, music, professional sports, politics, digital entertainment, and military life.

Makeup/Beauty Tutorials

The application features professional and amateur makeup, hair, and fashion tutorials in video or written format. Cosmetic artists can monetize their work by gaining sponsors directly from Kagayaki and other beauty companies.

Archived Makeup Looks

The application features an extensive makeup look database. Users can download specific makeup looks and apply to them to their faces. To account for differences in facial structure, the scanning suite will automatically adjust the look upon application.

Roleplaying with the Eternal Beauty Nekovalkyrja Application

The Eternal Beauty Nekovalkyrja Application facilitates and enhances the application of volumetric makeup by making the final makeup look better, making the process faster, and by developing user skill in applying volumetric makeup. When utilizing the application in the roleplay, players should seek to take advantage of it's social and cosmetic aspects in tandem.

For example, utilizing the application, players could have two Nekovalkyrja simultaneously apply volumetric makeup to each others faces, via the remote makeup application, completely hands-free if they so desire. Characters could also hire makeup artists to do their makeup from hundreds of light-years away. Similarly, characters could also interact with each other via personal messages and forums.

The social networks (forums and chat rooms) of the application could potentially play a unique role among the Nekovalkyrja community. Since the app and its associated social networks are exclusive to Nekovalkyrja only, discussion may be focused around a Nekovalkyrja-centered worldview, which has a few noteworthy implications regarding the tone of the political and military discourse that may occur through the application.
