

Kagayaki - Hea Gel

Manufacturer: [Kagayaki Cosmetics](#)

Tired of the length of your hair; had a terrible boutique experience, then our new hair extension gel is just the product for you.

About Hea Gel

This gel is protein based, and scented with a light refreshing fragrance. It contains millions of follicle micro-bots. These micro-bots analyze the users hair, then using the protein gel, they start creating hair that matches the color and texture user's original hair. Hair created with this is effectively real hair, and can be treated as naturally grown hair. The micro-bots continue to create hair as long as there is gel available.

Using the gel

Apply 50ml to the bottom 2.5cm (1 inch) of your hair. Rinse hands clean of gel; the micro-bots terminate when exposed to water. Allow hair to hang freely so that micro-bots will move to the ends. After approximately 1 minute of exposure to air the micro-bots activate. Typically results in 7.5 (3 inches) of new hair.

Warning Label

Leaving gel on other parts of your body containing hair will result in unwanted hair growing.

Size: 300ml (Approx 6 uses). **Cost:** 15 [KS](#)
