Still requiring various power armor weapons and systems for underwater operation including guns, sensors, and various new missiles.

YE33 Uniform Harness

Soldiers and ship crews need to have a certain set of equipment on them at all times including things like communication gear and some basic medical sensors. A uniform [Combat Harness](#) would ensure that these pieces of equipment are always on hand by giving them a standardized location to store them as well as any other gear relevant to the

- Pocket for smart phone system (built in front/back cameras, displays, basic habitability sensors)
- Harness clips on back for holding gear
- Flashlight/illumination gear
- Built in pockets for repair gear
- Leave shoulder ranks exposed
- Adjustable harness size
- Build in medical monitors (heartrate, blood pressure, ect)
- Clips to allow for attachment of backpacks ect.
