Fielded by	Yugumo Corporation , Star Army of Yamatai and Customers
Availability	Mass Production
Price	225.00 KS

History and Background

Having developed the [Advancer Enterprises Type 45 Individual First Aid Kit](#), [Advancer Enterprises'](#) Mechanics Division

Kit Description

While larger than an IFAK, the Vehicle First Aid Kit is much more of a generalist's kit than the [Type 45 Trauma Kit Jump Bag](#) and it is not as feature-rich as the Standardized Field Medic Kit. These are designed to be extremely common and accessible stored in vehicles or near workstations and treat a wide variety

of injuries both life-threatening and not. The case for the Vehicle First Aid Kit folds open like a book.

The top (the side marked with the Yugumo or Star Army logo) houses a small trauma kit, functionally a scaled-up IFAK. This side should not be tampered with unless the user is treating a life-threatening injury. The other side has a wide variety of things such as burn creams and pain bug bite ointments. This bottom or main part of the kit is designed to treat common or not immediately lethal injuries.

The components of the Type 45 Vehicle First Aid Kit are stored in a 24cm x 16cm x 8cm carrying case with a [Kinugoshi-ko](#) impregnated with [Omnihue](#) exterior and [Yarvex](#) lined interior with a thin layer of [Yarvex Foam](#) insulation sandwiched in between.

Contents

The Type 45 Vehicle First Aid Kit contains the following items:

QTY	Item	Trauma Type	Description/Use	Other Notes
