

Styrling Shot 12

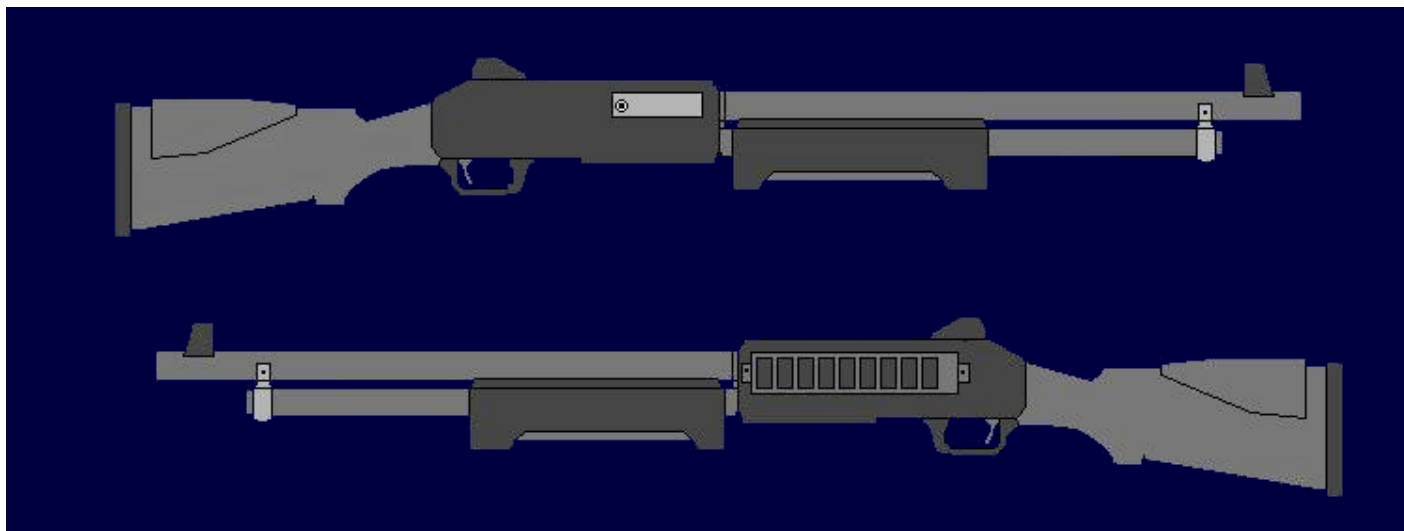

With the prevalence of more high-end, semi-automatic shotguns distributed to the military, Styrling decided to appeal to the “every-day man” and develop a relatively cheap, but robust, pump action shotgun. Chambered for the standard 12 Gauge shell that has become commonplace in every gun store, the shooter does not need to buy special Styrling-manufactured shells such as the Styrling .45, however, coupons on components and gear are available in each ammunition box.

Weapon Specifications

Nomenclature Information

- Designer: John Skwigleff
- Manufacturer: [Styrling Vervaardiging](#)
- Name: Styrling Shot 12 (Sv-SSG-01a)
- Type: Pump Action Shotgun
- **Damage:** Personnel 3.
- Role: Shotgun
- Length: 35 inches
- **Barrel Length:** 19 inches
- Mass: 9.12 lbs
- **ROF:** Depends on the shooter's ability to pump the shotgun.

Appearance

Discharge Information

Projection/ammo type: 12 Gauge Buckshot

Firing Mechanism

Pump Action

A pump-action firearm is typically fed from a tubular magazine underneath the barrel, which also serves as a guide to the movable fore-end. The rounds are fed in one by one through a port in the receiver, where they are pushed forward. A latch at the rear of the magazine holds the rounds in place in the magazine until they are needed. If it is desired to load the gun fully, a round may be loaded through the ejection port directly into the chamber, or cycled from the magazine, which is then topped off with another round.

This model lacks a trigger dis-connector, allowing the user to “slam fire” (hold the trigger down and rack the slide, allowing it to shoot faster, somewhat.)

Ammunition Description

- Caliber: 12 Gauge Buckshot
- Effective Range 40 Meters
- Maximum Range: 50 Meters
- Muzzle Velocity: 1250 (FPS)
- Muzzle Blast: Large flash followed by traces of burning powder
- Firing Mode: Pump Action
- Recoil: Heavy.

12 Gauge Buckshot

- **Visual Description:** Long red cylinder with a brass base.
- **Ammo:** 5 per magazine, 1 in chamber
- **Damage Description:** (Tier 2, Medium Anti-Personnel) Numerous pellets strike target at once, damage decreasing as distance to target increases.

Weapon Mechanisms

- **Safety:** Button on the back of the receiver.
- **Fire Mode Selector:** None, Pump Action Only.
- **Weapon Sight:** Ghost Ring Sights.
- **Attachment Hard Points:** One on the top of the receiver. Side saddle mounted on the left of the shotgun.

Other

Field Maintenance Procedure: Wipe and clean after every mission, taking care to scrub the barrel down and all moving parts.
