

Te-G2 Game Buddy

A Tamahagane Company

Manufacturer: [Taichimora Entertainment Technologies \(TET\)](#) Nomenclature: Te-G2-1a Designer: [Taichimora Entertainment Technologies \(TET\)](#) **Price:** 135 **KS** **Released:** YE 28

About

Like the [Anaba](#), the game buddy is designed to entertain. It is a small hand held device designed to play games, store data, play movies, music be a personal organizer and communicate with your best friend. It contains a large storage hard drive, a wireless communications device, a flat holograph projection screen and a slot for data cubes. The screen can be set to project a image to the size of 32", 4" 10" or 19"

Appearance and Add-ons

Visual - a 10" total area hand held console with a pair of thumb sticks and various buttons.

Extras - Virtual reality headset, Program cubes [games, tasks, etc.].

Notes - Although it is a decent machine, the Game buddy has its limitations. It is a very small portable device, but it wouldn't really find its way into army service.
