History and Background

For years [Motoyoshi-Ieyasu Taro](#) had a passion for crafted beer. In [YE 42](#) he conceived the first ideas for the Tokyo Brewing Company with the intention of growing a brand of beer in the [Yamatai Star Empire](#). He wanted a brand that would produce quality ales and lagers from the highest quality of [ingredients](#) possible. In [YE 43](#), the Tokyo Brewing Company opened several locations across the [Yamatai Star Empire](#) and celebrated a successful first year of business.

In [YE 44](#) the company continued to see success and plans were established to expand the venture's product lines for [YE 45](#).
