

Alpine Park

Literally based upon some of the most majestic alpine scenes from [abwehr](#), the Alpine Park is modeled after grassy areas filled with alpine flora and non-predatory wildlife right up against a rocky cliff side. The climate is eternally set to that of the spring season in the alpine region and allows visitors to rock climb or free climb the cliff face¹⁾.

Hot springs may also be found in the Alpine Park and are normally cordoned off with a privacy screen for those who wish to partake in them. Towels and lockers are provided for all visitors. The Alpine Park has an average area of three square kilometers.
