## **Tundra Park**

The Tundra Park of Abwehran Station Nature Parks is not a cold lifeless plain of ice and snow, despite thoughts the word Tundra might conjure up. Instead, the Tundra Park is a picturesque scene of a Tundra in spring time. It is also kept at temperatures many Abwehrans find pleasant, though Non-Abwehrans might find them chilly. A Tundra Park is normally kept at an average size of one square kilometer and contains a variety of plants and non-predatory animals that can be found in Tundra regions of abwehr.

The Tundra Park does hold some snow-climate events as well, when snow is created using a combination of the sprinkler and climate systems to create nice snowy scenes. These normally last some months before returning to the spring time setting.
