

20mm Gatling Gauss Cannon

An upgrade from the older model, this AF 260 (YE 31) model of six-barreled, Gatling Gauss Cannons was created to be a Squad Assist Weapon for Powered Armor. However, it is so effective at an Anti-Personnel Role that it is often used as stationary turrets for bases and even as secondary weapons on military ground vehicles. While placed on tripods as a stationary turret, the new Gatling Gauss Cannons are designed to be equipped to a Powered Armor's shoulder slot rather than being a hand held weapon.

Primary Role: Anti-Personnel Secondary Role: Suppression Fire Range: 6 kilometers Rate of Fire: 6000 rounds per minute Muzzle Velocity: 4000 meters/second

Damage Rating Values

Ammunition	Damage Rating	Description
20 x 90mm Concentrated Plasma Shell	3 ADR	Super-heated Ammunition
20 x 90mm Explosive Slug	3 ADR	Explosive Ammunition
20 x 90mm Tungsten-Carbide Spike	3 ADR	Standard Ammunition
